

Title (Budownictwo komunikacyjne II)	Code 1010124161010120082
Field Civil Engineering Extramural First-cycle Studies	Year / Semester 3 / 6
Specialty Transportation Engineering	Course core
Hours Lectures: 2 Classes: - Laboratory: - Projects / seminars: 14	Number of credits 5
	Language polish

Lecturer:

dr inż. Krzysztof Ziopaja
e-mail: krzysztof.ziopaja@put.poznan.pl
tel. 61 647 58 37

Faculty:

Faculty of Civil and Environmental Engineering
ul. Piotrowo 5
60-965 Poznań
tel. (061) 665-2413, fax. (061) 665-2444
e-mail: office_dceef@put.poznan.pl

Status of the course in the study program:

Speciality course.

Assumptions and objectives of the course:

The aim of the subject is presentation of selected problems of bridge design and building.

Contents of the course (course description):

Definition and terminology of bridge building. Structural parts of bridge structures: spans, supports, fittings. Classifications of bridges. Dimensions of bridges. Transportation requirements concerning bridges, clearances. Structural systems of concrete, steel and composite bridges. Loads, static-strength computations of bridges. Bridge erection methods.

Introductory courses and the required pre-knowledge:

Structural mechanics, Strength of materials

Courses form and teaching methods:

Lecture, design exercises.

Form and terms of complete the course - requirements and assessment methods:

Lecture: written colloquium.

Design exercises: submission of correctly completed exercise.
