		is of knowledge, skills and	d social competencies	•			
1	Knowledge	Basic information about the role					
2	Skills	Can analyze the typical manufac	analyze the typical manufacturing process				
3	Social competencies	He is aware of the social consequences of unconformity					
Assu		ectives of the course:					
Unders	• •	of quality management (lectures) a	nd methods for its implementa	ation and	I practical skills to create		
	Study outco	mes and reference to the	educational results fo	r a fiel	d of study		
Knov	vledge:						
1. He k	knows the theoretical t	pasis for quality management - [K_	_W10]				
		iques, and principles of quality ma					
3. He k	knows the rules of the	system of quality management in	the construction industry - [K_	W10]			
Skills	6:						
1. Able	e to analyze the proces	ss of anticipating and preventing th	e construction quality problem	า-[K_U	12]		
2. Able	e to develop and run a	system of continuous quality impr	ovement mechanism - [K_U1	2]			
		quality management - [K_U12]					
Socia	al competencies:						
1. Isolated complements and extends knowledge in quality management - [K_K03]							
2. Able to work independently, to work in a team and manage it - [K_K01]							
3. Foll	lows the rules of ethics	s - [K_K11]					
		Assessment method	ls of study outcomes				

Student Work includes:						
* The development and presentation of a selected topic in the subject						
* Project to improve the system of quality management						
* Written test						
Rating scale (test):						
more than 100 targeted						
91-100 very good (A)						
81 - 90 good plus (B)						
71 - 80 Good (C)						
61 - 70 is sufficient plus (D)						
51 - 60 satisfactory (E)						
insufficient under 50 (F)						
Course description						
Introduction, rationale implementation of quality management systems. Development of quality engineering genesis of quality management systems, current status and prospects for development. Authorities in the field of quality management (Deming's ideas, Juran, Crosby on white and others) - the concept of quality engineering based on their assumptions. The essence of Total Quality Management (assumptions, the basic elements). System measures, methods and tools of quality management and teamwork. Mutual communication, motivation and organizational culture.						
Basic bibliography:						
1. Hamrol A. Zarządzanie jakością z przykładami, PWN, Warszawa-Poznań, 2009						
Additional bibliography: 1. Blikle A. J. Doktryna jakości. Rzecz o skutecznym zarządzaniu, Wydawnictwo Własne A. Blikle, 2013						
Result of average student's workload						
Activity		Time (working hours)				
1. Participation in lectures / seminars	30					
2. Participation in project in quality system	15					
3. Preparation to test	15					
4. Elaboration of project	20
