		STUDY MODULE D	ESCRIPTION FORM		
	f the module/subject			Code 1010312231010310081	
Field of	study		Profile of study (general academic, practica	n	Year /Semester
Elect	trical Engineerin	g	(brak)	')	2/3
Elective	path/specialty Electr	ic Power Systems	Subject offered in: polish		Course (compulsory, elective) obligatory
Cycle of		•	Form of study (full-time,part-time)	
	Second-cy	full-time			
No. of h	ours				No. of credits
Lectur	Classes		Project/seminars:	2	15
Status o	-	program (Basic, major, other)	(university-wide, from another	,	
Educatio	on areas and fields of sci	(brak)		(bra	ECTS distribution (number
Euucalio					and %)
techn	ical sciences				15 100%
Resp	onsible for subje	ect / lecturer:			
ema tel. 6 Wyc	. dr hab. inż. Aleksanc il: aleksandra.rakowsl 61-665 2616 Iział Elektryczny Piotrowo 3A 60-965 Pc	ka@put.poznan.pl			
Prere	quisites in term	s of knowledge, skills an	d social competencies	:	
1	Knowledge	Student has the increased know field of studies	ledge obtained in time of studi	ies or	n Electrical Engineering
2	Skills	Student has the ability to indicat engineering	e and formulate issue and pro	blem	in electric power
3	Social competencies	Student knows the increased po	ssibilities to acquire knowledg	e fror	n literature sources
Assu	mptions and obj	ectives of the course:			
	tation the investigation ation to final diploma	n results and information on the m colloquium	nain topic of MSc thesis. Form	ulatio	n of conclusions.
	Study outco	mes and reference to the	educational results fo	r a f	ield of study
Know	/ledge:				
	ent knows the newest ering - [K_W04++]	achievements and development	trends in the scope of chosen	issue	es in electric power
Skills	:				
	ent is able to use tech nions [K_U01+, K	nical literature, gather and interpr _U15++, K_U16+]	et obtained information, formu	ilate t	he final conclusions, justify
		present a comprehensive presenta		•	0 1 - 1
the sco	pe of electric power e			searc	h individually or in group in
	Il competencies:		1 1 1 × 1 × 1 × 1		
1. Stud	ent knows the need a	nd knows the way to acquire the k	knowledge and transfer it to the	e con	nmunity - [K_K01+, K_K05+]
		Assessment metho	ds of study outcomes		

Assessment of prepared presentations and elements of his thesis ? oral and MM presentation

Course description

Result of average stud	lent's workload	
Activity	Time (working hours)	
1. Participation in seminar		30
2. Consultations with supervisor of MSc thesis	60	
	100	
3. Review and study of technical literature, carry-out of research dea	aling with the issue of MSc thesis	100
 Review and study of technical literature, carry-out of research dea Preparation of obtained results presentation 	aling with the issue of MSc thesis	20
	aling with the issue of MSc thesis	
4. Preparation of obtained results presentation	aling with the issue of MSc thesis	20
 Preparation of obtained results presentation Preparation of MSc thesis in final version Preparation for final diploma colloquium 	aling with the issue of MSc thesis	20 150
 Preparation of obtained results presentation Preparation of MSc thesis in final version Preparation for final diploma colloquium Participation in MSc diploma colloquium 		20 150 45
 Preparation of obtained results presentation Preparation of MSc thesis in final version Preparation for final diploma colloquium 		20 150 45
 Preparation of obtained results presentation Preparation of MSc thesis in final version Preparation for final diploma colloquium Participation in MSc diploma colloquium 		20 150 45
 4. Preparation of obtained results presentation 5. Preparation of MSc thesis in final version 6. Preparation for final diploma colloquium 7. Participation in MSc diploma colloquium Student's workload	rkload	20 150 45 1 ECTS
 4. Preparation of obtained results presentation 5. Preparation of MSc thesis in final version 6. Preparation for final diploma colloquium 7. Participation in MSc diploma colloquium Student's work	rkload	20 150 45 1
