Prere	equisites in term	s of knowledge, skills an	d social competencies:			
1	Knowledge	He/she has fundamental knowledge collected during study on Electric Engineering field.				
2	Skills	He/she can indicate and formula	can indicate and formulate tasks, problems in frame of electric engineering.			
3	Social competencies	He/she knows fundamental possibilities of the receiving of knowledge from literature sources.				
Assu	mptions and obj	ectives of the course:				
	The presentation of literature, genesis, aim, and range of diploma work which concerning chosen problems in frame of elec Engineering.					
	Study outco	mes and reference to the	educational results for a	field of study		
Knov	vledge:					
2. He/s	-	trends according to development	ents in electric power system [K_ trends in frame of electric power s	-		
	she knows fundamenta	•	ion of diploma thesis in frame of ele	ectric power system -		
Skills						
1. He/she can use available literature in printed and electronic version in frame of network and electric power system obtaine information and summarize conclusions, and formulate opinions with arguments - [K_U01+, K_U06+]						
	al competencies:		<u> </u>			
1. He/she has consciousness of consequenced of own work results in frame of electric power engineering - [K_K01+]						
Assessment methods of study outcomes						

Assessment of prepared presentations of individual parts of diploma thesis in verbal form (literature, aim, range of the thesis)

Course description

1. Presentation of introduction, worked out on the basis of literature, to problem in

area of electric power engineering, in diploma thesis

2. Description of genesis, aim, thesis, and range of investigations and problems analysis

3. Preparation of specialist literature used in diploma thesis

Basic bibliography:

- 1. Description of genesis, aim, thesis, and range of investigations and problems analysis
- 2. Polish-English dictionary
- 3. Specialist literature (books, conferences proceedings)
- 4. Lexicons, encyclopedias, technical guides

Additional bibliography:

1. Very well prepared diploma thesis

Result of average student's workload

Activity	Time (working hours)	
1. Participation in seminar		9
2. Analysis of literature	20	
3. Laboratory and results analysis	30	
4. Consulation with supervisor	30	
5. Preparation of presentation	6	
Student's wo	rkload	
Source of workload	hours	ECTS
Total workload	89	3
Contact hours	45	2
Practical activities	40	2
