STUDY MODULE DESCRIPTION FORM								
Name of the module/subject Object oriented programming				Code 1010341541010322719				
Field of		U		Profile of study	Year /Semester			
Mathematics				(general academic, practical) (brak)		/4		
Elective path/specialty				Subject offered in: polish	Course (compulsory, ele obligatory	ective)		
Cycle of study:			Form of study (full-time,part-time)					
First-cycle studies			full-time					
No. of h	ours				No. of credits			
Lectur	e: 1 Classes	s: - Laboratory: 1		Project/seminars:	- 4			
Status o	f the course in the study	program (Basic, major, other)	(university-wide, from another field)					
		(brak)		(brak)				
Educatio	Education areas and fields of science and art				ECTS distribution (numb and %)	ber		
techn	ical sciences				4 100%			
	Technical scie	ences			4 100%	•		
Responsible for subject / lecturer: dr inż. Leszek Kasprzyk email: Leszek.Kasprzyk@put.poznan.pl tel. 616652659 Wydział Elektryczny ul. Piotrowo 3A 60-965 Poznań								
Prere	quisites in term	s of knowledge, skills and	d so	ocial competencies:				
1	Knowledge	Basic knowledge of programming						
2	Skills	Skills in the basics of architecture and software systems						
3	Social competencies	Awareness of the need to expand their competences						
Assu	mptions and obj	ectives of the course:						
Knowledge of both theoretical and practical aspects of high-level programming features of object-oriented programming, the acquisition of skills development in the Microsoft. NET Visual C #								
Study outcomes and reference to the educational results for a field of study								
Knowledge:								
1. Knows the rules of high-level programming - [K_W08+]								
2. Has knowledge of object-oriented programming useful when creating technical applications - [K_W08+] Skills:								
1. Can use the tool for programming using object-oriented programming elements - [K_U26++, K_U27++]								
	I competencies:			<u> </u>	, <u> </u>			
	think and act in a crea							

Assessment methods of study outcomes

Lecture:

- Assess the knowledge and skills listed on the completion of a written,
- Continuous evaluation for each course (rewarding activity).

Laboratory:

- The final test and favoring knowledge necessary for the accomplishment of problems in the area of laboratory tasks,
- Continuous evaluation for each course rewarding gain skills they met the principles and methods
- Assessment of knowledge and skills related to the implementation of the tasks your practice.

Get extra points for the activity in the classroom, and in particular for:

- A discussion of additional aspects of the processed issues;
- The effectiveness of the application of the knowledge gained during solving the given problem;
- Ability to work within a team practice performing the task detailed in the laboratory;
- Comments related to the improvement of teaching materials;
- Developed aesthetic care tasks;

Course description

Basic issues of object-oriented programming, Visual Studio C # Express Edition, the issue of representation of physical reality in data structures, declarations of object types, static and dynamic variable object, fields and methods, constructors and destructors, overloading operators, encapsulation, inheritance, polymorphism, create controls.

Basic bibliography:

- 1. Visual C# 2005 Express Edition. Od podstaw, J. Matulewski, Helion, Warszawa, 2006
- 2. Wstęp do programowania w języku C#, A. Boduch, Helion, Warszawa, 2006
- 3. C# i .NET, S. C. Perry, Helion, Warszawa, 2006

4. SQL Server 2005. Programowanie od podstaw, R. Vieira, Helion, Waszawa, 2007

Additional bibliography:

1. Wprowadzenie do systemów baz danych, R. Elmasri, S. B. Navathe, Helion, Waszawa, 2005

2. Internet

Result of average student's workload

Activity	Time (working hours)
1. lectures	15
2. laboratories	15
3. participate in the consultations on the lecture	10
4. participate in the consultations on the laboratories	10
5. preparation for laboratory	15
6. homeworks preparation	15
7. prepare for a evaluation	15

Student's workload						
Source of workload	hours	ECTS				
Total workload	95	4				
Contact hours	50	2				
Practical activities	55	2
