STUDY MODULE DESCRIPTION FORM

Profile of study

(general academic, practical)

Final: written test.

Assessment methods of study outcomes

Course description

Faculty of Engineering Management

Sociology as a science. Problems and topics of sociology. Methods and technics of sociological researches. Main tools of researchers and their constructing. Determinatns of human existence. Natural, cultural and economic roots of social life. Social ties, interactions and interpersonal communication. Personality and social personality. An individual and society. Typology of guman groups. Macro and microstructures in society. Social stratification. Social changes and processes. Patologies and devations. Tje problem of social order. Social policy, sociotechnics, psychotechnics. The beginning and development of an informative (digital) society. The role of Internet. ICT influence into the development of network structures. Cyberculture in internet society. Blogs, virtual social groups.

Basic bibliography:

1. Socjologia, J. Turner, Zysk i S-ka, Poznań, 1998

Additional bibliography:

1. Wprowadzenie do socjologii, B. Szacka, Oficyna Naukowa, Warszawa, 2003

Result of average student's workload

Activity	Time (working hours)
1. Lectures	16
2. Preparing for final test	9
3. Own student's work	5

Student's workload

Source of workload	hours	ECTS			
Total workload	30	2
