		STUDY MODULE D	ES	CRIPTION FORM				
Name of the module/subject Basics Problems of Ecology				Co		de 10634151010623053		
Field of study				Profile of study (general academic, practical)		Year /Semester		
Mechanical Engineering				(brak)		3/5		
Elective path/specialty Thermal Engineering				Subject offered in: Polish		Course (compulsory, elective) obligatory		
Cycle o	f study:		For	m of study (full-time,part-time)				
First-cycle studies				part-time				
No. of h	iours		1			No. of credits		
Lectu	re: 10 Classes	s: - Laboratory: -		Project/seminars:	-	1		
	0146666	program (Basic, major, other)		(university-wide, from another f	ield)			
Clarac	(brak) (brak)							
Education areas and fields of science and art						ECTS distribution (number and %)		
Responsible for subject / lecturer: prof. dr hab. inż. Jerzy Merkisz email: jerzy.merkisz@put.poznan.pl tel. 61 665 20 08 Faculty of Working Machines and Transportation ul. Piotrowo 3 60-965 Poznań Prerequisites in terms of knowledge, skills and social competencies:								
	•							
1	Knowledge	student has knowledge related to environmental protection, learns the mechanisms of harmful compounds emissions in transport and industry, the student has a basic knowledge about factors causing danger to the environment, learns how to prevent the emission of harmful substances into the atmosphere, learns the classification of harmful compounds to human health and their safety data sheets						
2	Skills	conclusions, formulate and justi	obtained information, to make their interpretation, draw ify opinions, has a general knowledge in the field of e to obtain information from literature and web sources					
3 <b>A</b> ssu	Social competencies	student is able to formulate judgments regarding to social issues, is aware of the importance and understanding of non-technical aspects and the environmental impacts of engineering, the student is aware of the risks associated with the emission of harmful substances into the atmosphere and has an environmental awareness of negative social behavior on health and human safety in transport and industry ectives of the course:						
Overal familia	knowledge about the rization to the topics o	risks associated with human activ f ecology in industry and transpor ower of modern vehicles						
000100		mes and reference to the	ed	ucational results for	a f	ield of study		
Know	vledge:				~ 1			
	U U	· · · · · · · · · · · · · · · · · · ·						
1. Has the knowledge in the field of toxic and harmful compounds chemical properties - [-]								
2. Knows the basics of logistics process optimization in terms of ecological service of vehicles - [-]								
3. Knows the methods of ecological rates increasing in companies using logistics systems - [-]								
4. Knows the general outline of environmental determinants of mass transport - [-]								
		e about the enviromental risks co	ncer	ned with development of th	e tra	ansport industry - [-]		
Skills	S:							
1. Is able to make a preliminary assessment of ecological risks in transport and industry - [-]								
2. Is able to analyze the factors which influence on the environmental performance in transport - [-]								
3. Is able to analyze the regulations of the toxicity of exhaust gases based on the literature - [-]								
4. Is able to analyze the vehicles categories in terms of their level of environmental performance - [-]								
5. Is a	ole to interpret and dra	aw conclusions and justify opinion	s -	[-]				
Socia	al competencies:							

1 0

5

1. The possibility of ecological awareness formation in the social environment - [-]

2. Awareness of social risks in terms of the environmental protection and the associated responsibility for decisions - [-]

study outcomes					
rocesses in improving compa					
iption					
Industrial risks to the environment, the basic of transport systems in terms of ecology, classification of propulsion systems; basic knowledge of exhaust gas aftertreatment systems, environmentally friendly technologies in transport, the impact of macroeconomic factors on the implementation of environmentally friendly technologies in transport					
ent's workload					
	Time (working hours)				
	15				
2. Office hours					
	5
