

STUDY MODULE DESCRIPTION FORM		
Name of the module/subject Transport economics		Code 1010611271010612393
Field of study Transport	Profile of study (general academic, practical) (brak)	Year /Semester 4 / 7
Elective path/specialty Logistics of Transport	Subject offered in: Polish	Course (compulsory, elective) obligatory
Cycle of study: First-cycle studies	Form of study (full-time, part-time) full-time	
No. of hours Lecture: 1 Classes: 1 Laboratory: - Project/seminars: -		No. of credits 2
Status of the course in the study program (Basic, major, other) (brak)		(university-wide, from another field) (brak)
Education areas and fields of science and art technical sciences		ECTS distribution (number and %) 2 100%
Responsible for subject / lecturer: Agnieszka Merkisz-Guranowska, D.Sc. email: agnieszka.merkisz-guranowska@put.poznan.pl tel. 61 647 59 58 Faculty of Working Machines and Transportation ul. Piotrowo 3 60-965 Poznań		Responsible for subject / lecturer: Wojciech Karpiuk, Ph.D. email: wojciech.karpiuk @put.poznan.pl tel. 61 665 27 05 Faculty of Machines and Transport 3 Piotrowo street, 60-965 Poznan, Poland
Prerequisites in terms of knowledge, skills and social competencies:		
1	Knowledge	Student has a basic understanding of economic phenomena, including the market mechanism and specificity of decision-making in market economy
2	Skills	Student is able to associate and integrate the information, analyze the phenomena occurring in the environment, draw conclusions, formulate and justify opinions
3	Social competencies	Student is able to do a literature research and knows the rules of work group and discussion
Assumptions and objectives of the course: Acquiring of the knowledge about economics of transport , in particular about the specificity of the transport sector and operation and business of transport companies.		
Study outcomes and reference to the educational results for a field of study		
Knowledge:		
1. Has the knowledge of the basic terms related to economics of transport companies. - [K1A_W11]		
2. Has the knowledge of the strategy types of enterprises operating in a market economy with particular emphasis on the specificity of the transport sector. - [K1A_W11]		
3. Has the knowledge of the operational rules of transport companies. - [K1A_W21]		
4. Has the knowledge of the rules governing the functionality of transport companies including the breakdown between different modes of transport - [K1A_W11]		
5. Has the knowledge of the method of calculation of the selected costs relating to the transport companies - [K1A_W11]		
Skills:		
1. Is able to characterize the models of competition in the transport sector - [K1A_U01]		
2. Is able to analyze the strategies of transport companies and assess their performance - [K1A_U06]		
3. Is able to interpret phenomena in the transport sector in the context of their impact on the development of the market - [K1A_U01]		
4. Is able to analyze the cost group occurring in companies dealing with transport services - [K1A_U09]		
5. Is able to calculate what type of transport means should be chosen by a company - [K1A_U16]		
6. Is able to calculate the depreciation of means of transport - [K1A_U16]		
Social competencies:		

1. Understands the importance of the operation of transport companies to address social needs and to support economy as a whole - [K1A_K02]
2. Is able to develop his knowledge in the field of transportation economics - [K1A_K01]
3. Is able to apply his knowledge to practical purposes in relation to the activities of transport companies. - [K1A_K03]

Assessment methods of study outcomes

Partial evaluation:

Lectures - assessment of the student activity during lectures

Classes - assessment of the student activity during classes and presentations of discussed topics

Final evaluation:

Lectures: Average rating taking into account assessment of the student activity during lectures and a written final test

Classes: average rating taking into account student's activity in the classes and presented topics.

Course description

Lectures:

1 Economic importance and functions of transport. The relationship between transport and the economy.

2 Strategies on the transport market. Types of strategies. Typical strategies for road transport, logistic sector and air transport.

3 Impact of the regulatory processes on the transport sector.

4 Co-operation and capital consolidation in the transport sector (strategic alliances, mergers and acquisitions)

5 Economic problems in the development of transport companies in Poland relating to the transformation associated with the functioning of the single European market.

Result of average student's workload

Activity	Time (working hours)
1. Participation in lectures	15
2. Learning of lectures content	5
3. Preparation for the final test	5
4. Participation in the final test	2
5. Preparation for classes	5
6. Participation in classes	15
7. Learning of the classes content	5

Student's workload		
Source of workload	hours	ECTS
Total workload	52	2
Contact hours	32	1
Practical activities	15	1
