Profile of study (general academic, practical)

Name of the module/subject

Diploma Seminar

Field of study

Trar	nsportation Engir	neering Extramural Secon	d- general academi	ic 2 /	4
Elective	e path/specialty Ro	ad Engineering	Subject offered in: Polish	Course (compulsory, election obligatory	ctive)
Cycle of study: Second-cycle studies			Form of study (full-time,part-time		
			part-time		
No. of I	hours			No. of credits	
Lectu	re: - Classe:	s: Laboratory:	Project/seminars:	30 5	
Status		program (Basic, major, other)	(university-wide, from another	,	
		other	university-wide		
Educat	ion areas and fields of sci	ence and art		ECTS distribution (number and %)	эr
tech	nical sciences			5 100%	
	Technical scie	ences		5 100%	
Resp	oonsible for subj	ect / lecturer:	Responsible for subj	ect / lecturer:	
	f. dr hab. inż. Wojciech		Dr. Mieczysław Słowik		
email: wojciech.grabowski@put.poznan.pl			email: Mieczyslaw.Slowik@put.poznan.pl		
	61-665-24-87	al Engineering	tel. +48 61 665 24 87 of Civil and Environmental Engineering		
of Civil and Environmental Engineering Piotrowo Str. 5, 60-965 Poznań			5, Piotrowo Street, PL 60-965 Poznań		
Prere	equisites in term	ns of knowledge, skills and	d social competencie	s:	
1	Knowledge	The scope of the knowledge gained from the program the first cycle studies and the first and second semester of the second cycle			
2	Skills	The skills acquired in the I and I maintenance of roads.	I course of studies in the are	as: design, construction and	
3	Social	Ability to work independently.			
J	competencies				
Assı	imptions and ob	ectives of the course:			
-The a	acquisition of knowledg	ge and skills needed for self-preser	ntation of prepared papers, in	ncluding thesis.	
	Study outco	mes and reference to the	educational results for	or a field of study	
Knov	wledge:				
		equirements for the preparation of			
		lles of formal accession to the final			
	dent has expanded an ow to solve it [-]	d deepened the knowledge and sp	ecialization required for the	formulation of a technical prob	olem
Skills					
1. The	student is able to form	nulate a technical issue thesis topio	c and method of solution		
2. He	can defend the thesis	of his speeches [-]			
3. He	can make a critical as	sessment of the problem and the t	echniques, has the ability to	discuss and use of multimedi	ia -
Soci	al competencies:				
1. Able	e to work independent	ly [K_K01]			_
2. Is a	aware of the need for p	orofessional development [K_K06	6]		

STUDY MODULE DESCRIPTION FORM

Transportation Engineering Extramural Second- general academic

3. Comply with the rules of ethics. - [K_K11]

Assessment methods of study outcomes

Faculty of Civil and Environmental Engineering

Assessment of student seminar graduation, taking into account the communication of the level of preparation, the use of correct language, the use of the audiovisual media, the activity (inspiring discussion), the use of 'relevant, well-prepared examples.

Course description

-Course content compatible with the tasks detailed data in tab thesis topic.

Basic bibliography:

1. Scientific and technical literature, standards, guidelines, technical and procedural requirements raised by the graduate student in accordance with the subject of the thesis.

Additional bibliography:

1. Scientific and technical literature collected by graduate student in accordance with the subject of the thesis.

Result of average student's workload

Activity	Time (working hours)
Consultation with the supervisor.	5
2. Individual preparation of seminar.	105
3. Participation in graduate seminars.	30

Student's workload

Source of workload	hours	ECTS
Total workload	140	5
Contact hours	30	1
Practical activities	0	0
