		STUDY MODULE D	ESCRIPTION FORM					
Name of the module/subject Diploma seminar				Code 1010315341010310081				
Field of			Profile of study		Year /Semester			
Electrical Engineering			(general academic, practica general academic	'	2/4			
Elective path/specialty			Subject offered in:	-	Course (compulsory, elective)			
High Voltage Engineering			Polish		obligatory			
Cycle of study: Form of study (full-time,part-time)								
	Second-cy	vcle studies	part-time					
No. of h	ours				No. of credits			
Lectur	0.00000	1	Project/seminars:	18	13			
Status o	-	program (Basic, major, other)	(university-wide, from another					
Educatio	other university-wide							
Educatio	Education areas and fields of science and art ECTS distribution (nu and %)							
Responsible for subject / lecturer: dr hab. inż. Zbigniew Nadolny, prof. nadzw.								
email: zbigniew.nadolny@put.poznan.pl tel. 61-665-2298 Faculty of Electrical Engineering ul. Piotrowo 3A 60-965 Poznań								
Prerequisites in terms of knowledge, skills and social competencies:								
1	Knowledge	Student has the increased know field of studies	wledge obtained in time of studies on Electrical Engineering					
2	Skills	Student has the ability to indicat engineering	te and formulate issue and problem in electric power					
3	Social competencies	Student knows the increased po	ossibilities to acquire knowledge from literature sources					
Assumptions and objectives of the course:								
Presentation the investigation results and information on the main topic of MSc thesis. Formulation of conclusions. Preparation to final diploma colloquium								
Study outcomes and reference to the educational results for a field of study								
Know	/ledge:							
	ent knows the newest ering - [K_W04++]	achievements and development	trends in the scope of chosen	issue	s in electric power			
Skills	:							
1. Student is able to use technical literature, gather and interpret obtained information, formulate the final conclusions, justify the opinions [K_U01+, K_U15++, K_U16+]								
		present a comprehensive presenta		-	• • •			
the sco	pe of electric power e	task realization, evaluate the pro ngineering - [K_U02+,K_U10+,		searc	h individually or in group in			
	I competencies:							
1. Student knows the need and knows the way to acquire the knowledge and transfer it to the community - [K_K01+, K_K05+]								
Assessment methods of study outcomes								
Assess	ment of prepared pres	sentations and elements of his the	esis ? oral and MM presentation	on				
		Course d	escription					

Presentation of the research results and chosen problems analysis, formulation of the logical conclusions obtained from the carried-out investigations and analyses. Construction of the list of cited publications obtained in time of the diploma work preparation.

Basic bibliography:

- 1. Authors vademecum, principles of publication preparation, Wydawnictwo Politechniki Poznańskiej
- 2. Polish-English, English-Polish dictionary, and other
- 3. Technical literature (books, technical journals, conference proceedings, catalogues)
- 4. Lexicons, encyclopedias, technical guides

Additional bibliography:

1. Exemplary MSc thesis prepared previously

Result of average student's workload

Activity		e (working hours)	
1. Participation in seminar		18	
2. Consultations with supervisor of MSc thesis	60		
3. Review and study of technical literature, carry-out of research de	100		
4. Preparation of obtained results presentation	20		
5. Preparation of MSc thesis in final version	180		
6. Preparation for final diploma colloquium	45		
7. Participation in MSc diploma colloquium			
Student's wo	orkload		
Source of workload	hours		ECTS
Total workload	406	15	
Contact hours	111	5	
Practical activities	250	6
