

STUDY MODULE DESCRIPTION FORM		
Name of the module/subject Diploma seminar		Code 1010321361010320081
Field of study Electrical Engineering	Profile of study (general academic, practical) general academic	Year /Semester 3 / 6
Elective path/specialty Electrical Systems in Mechatronics	Subject offered in: Polish	Course (compulsory, elective) obligatory
Cycle of study: First-cycle studies	Form of study (full-time, part-time) full-time	
No. of hours Lecture: - Classes: - Laboratory: - Project/seminars: 15		No. of credits 4
Status of the course in the study program (Basic, major, other) other		(university-wide, from another field) university-wide
Education areas and fields of science and art technical sciences Technical sciences		ECTS distribution (number and %) 4 100% 4 100%
Responsible for subject / lecturer: Dr inż. Rafał M. Wojciechowski email: rafal.wojciechowski@put.poznan.pl tel. 48 061 647 58 03 Electrical Engineering ul. Piotrowo 3a, 60-965 Poznań		
Prerequisites in terms of knowledge, skills and social competencies:		
1	Knowledge	Knowledge of the construction, methods of analysis and synthesis of electromagnetic transducers and fundamental knowledge related to the measurements methods used in the electrodynamics.
2	Skills	Familiarity with programs for numerical analysis of electromechanical transducers at the basic level, the basic skills to perform principal measurements of electrical machines and electromechanical actuators, effective self-study skills in a field related to the chosen major of study.
3	Social competencies	Skills in teamwork and proper verbal communication, the awareness of the need to broaden their skills and knowledge.
Assumptions and objectives of the course: The student will obtain knowledge of the modern methods of investigation, design and analysis of actuators in automation, mechatronics, electromagnetic and electromechanical transducers.		
Study outcomes and reference to the educational results for a field of study		
Knowledge: 1. The student knows the basic engineering technology related to the construction and design of electrical transducers in mechatronics. - [K_W18+] 2. The student know the basics of copyright and intellectual property protection, knows how to use the electronic and printed resources. - [K_W21+]		
Skills: 1. The student knows how to use available literature resources, obtain information and interpret them to draw out proper conclusions. - [K_U05+++; K_U09+++] 2. The student can work individually and in a team, is able to estimate the time needed for the commissioned tasks and realize this task in manner of supposed time. - [K_U06+++]		
Social competencies: 1. The student is aware of the value of his work, respect the principles of teamwork, takes responsibility for collaborative work - [K_K03+]		
Assessment methods of study outcomes		

<p>Seminar: ? notes of knowledge and skills necessary to implement engineering topic, ? effectiveness of the application of knowledge to solve problems ? continuous evaluation on each seminars: student activity, increase of its knowledge and skills, ? assessment of presentation showing progress on the thesis topic.</p>		
Course description		
<p>Computer-aided design of electromagnetic and electromechanical transducers. Unconventional electromechanical converters. Simulation of operating conditions of chosen machines. Analysis of electromagnetic field in chosen electromagnetic devices. Measuring stands for investigation of phenomena in transformers and mechatronics actuators. Presentation of selected technical activities in Division of Mechatronics and Electrical Machines of PUT</p>		
<p>Basic bibliography: 1. Paper and books related to the subject of diploma work.</p>		
<p>Additional bibliography:</p>		
Result of average student's workload		
Activity	Time (working hours)	
1. Seminars	15	
2. Participate in the consultations	25	
3. Preparation for seminars	10	
4. Preparation of presentation showing progress on the thesis topic	25	
Student's workload		
Source of workload	hours	ECTS
Total workload	75	4
Contact hours	40	2
Practical activities	50	2
