Responsible for subject / lecturer: dr inż. Zbigniew Włodarczak email: zbigniew.wlodarczak@put.poznan.pl tel. (+4861)6653387 Faculty of Engineering Management							
	elecka Str. 11, 60-965 equisites in term	s of knowledge, skills and	d so	ocial competencies:			
1	Knowledge	Basic knowledge of secondary se	choo	bl			
2	Skills	Basic computer literacy					
3	Social competencies	Able to work in computer laboratory group					
Assu	mptions and obj	ectives of the course:					
prepare	e technical reports and	ency in spreadsheet calculations, of documentation in the form of We ent and its graphical view and form	b pa	ages. They should understa			
logical		mes and reference to the		•	a fie	eld of study	
Know	/ledge:					<u> </u>	
Students are able to describe means for logical structure definition and print and screen formatting in office editors and HTML documents [[(T1A_W02) K1A_W09]							
2. Students understand the terminology of Web page construction and operation [(T1A_W02) K1A_W10]							
Students can describe the range of optimization problems that can be solved in spreadsheet applications [(lnzA_W05) KlnzA_W05] [(lnzA_W05) KlnzA_W05]							
Skills:							
 Students are able to prepare Web pages appropriate for technical and scientific contents [T1A_U05 K1A_U05] Students are able to solve a variety of spreadsheet tractable problems [(T1A_W02) K1A_W10] 							
3. Stud		problem solving applications for op-			_vv10	I	
	al competencies:						

1. Is aware of computer data security and the interests and rights of their users. - [(T1A_KO2) K1A_K02]

Faculty of Engineering Management

Assessment methods of study outcomes

-Practical tests in laboratories (70%)

Home assignment in information architecture design (30%)

Course description

Principles of co-operation with the company's Desktop Publishing department. Ways of defining the logical structure and appearance of documents: from office editors and printer control languages to HTML / CSS.

A series of computational tasks in spreadsheets with the emphasis on the conditional and data base functions. Solver and an example of linear programming problem. Preparation of simple HTML documents with a technical report.

Program methods:

- He works with a prince
- Demonstration method
- Laboratory method

Basic bibliography:

- 1. Microsoft documentation for current versions of Excel
- 2. Internet resources for Web developers

Additional bibliography:

- 1. John WalkenbachExcel 2010 Formulas (Mr. Spreadsheet's Bookshelf) Willey 2011
- 2. John Walkenbach, John Walkenbach's Favorite Excel 2010 Tips and Tricks Willey 2011

Result of average student's workload

Activity	Time (working hours)
1. Laboratory classes	30
2. Preparation for the final credits	30
3. Home assignment	5

Student's workload

Source of workload	hours	ECTS				
Total workload	65	3				
Contact hours	30	1				
Practical activities	30	1
