	,	s of knowledge, skills and	•		
1	Knowledge	Basic knowledge of secondary school.			
2	Skills	ability to solve simple tasks			
3	Social competencies	group work, interest in science			
Assu	mptions and obj	ectives of the course:			
recogn The sy develo	ize of the logic of char stemic character of the	knowledge of the main problems conges in production techniques and at conjunction is accented. Letting their ability to recognize, evaluation	conjunction of human with th know of students with the co	ne technology and environment. ntemporary trends in technology	
	Study outco	mes and reference to the	educational results fo	r a field of study	
Knov	vledge:				

Milowieuge.

- 1. has orderly, theoretically supported general knowledge of technical security [K01-InzA_W01]
- 2. has basic knowledge of products, equipment, technical systems [[K01-InzA $_$ W03]
- 3. knows elementary notions connected with reliability and security in maintaining technical equipment, objects and technical systems [K01-InzA_W05]

Skills:

Faculty of Engineering Management

- 1. can acquire, integrate, interpret data from literature, database or other properly matched sources, both in English or other foreign language accepted as an international language of communication within Management Engineering, as well as to draw conclusions, formulate and justify opinions [K01-InzA_U5]
- 2. has self-study ability and comprehends it [K01-InzA_U6]
- 3. can make use of analytic, simulation and experimental methods to formulate and solve engineering problems [K1A-InzA_U09]
- 4. can, while formulating and solving engineering tasks, discern their systemic and non-technical aspects and also sociotechnical, organisational and economic approach [K1A-InzA_U10]
- 5. can conduct a critical analysis of the ways in which technical solutions function and assess, by means of Management Engineering, the existing technical solutions, in particular machines, equipment, objects, systems, services and processes [K1A-InzA_U13]
- 6. can identify and formulate the specification of simple engineering tasks, that are of practical nature, typical of Management Engineering [K1A-InzA_U14]

Social competencies:

- 1. understands the need and knows means how to self-study (first, second and third cycle studies, postgraduate studies, qualification courses) improving professional, personal and social competence; can argument the need to learn for the whole life [K01-InzA_K1]
- 2. is aware of the relevance of the study and understands non-technical aspect as well as the consequences of engineering activity, including its impact on environment and taken responsibility of his decisions [K01-InzA K2]

Assessment methods of study outcomes

Initial grade:

a)for seminars: based on written quizzes,

b)for lectures: based on written or oral answers to questions on the material covered in the current and previous lectures,

Final grade:

a)for seminars: based on an average of the attained quiz grades and passing an integrative test,

b)for lectures: based on passing a written test on the subjects presented during the lectures.

Course description

-Chosen elements of the history of technology on a background of human evolution and social development. Technological methods concerning materials (e.g. plastic working, founding, machining, heat- and thermo-chemical treatment), energy and information and their technical equipment. Technology in different areas in human activity. Technology and human work. The main problems of the contemporary civilization. Ethical problems of users and creators of technology means and technical devices.

Basic bibliography:

- 1. Wprowadzenie do techniki (Introduction to technology)- Tytyk Edwin, Butlewski Marcin, Wyd. Politechniki Poznańskiej, Poznań, 2009
- 2. Wprowadzenie do techniki materiały do ćwiczeń i wykładów (Introduction to technology- materials for lectures and practice), Tomaszewski Zbigniew, Wyd. Politechniki Poznańskiej, Poznań, 2005
- 3. Encyklopedia technik wytwarzania stosowanych w przemyśle maszynowym (Encyclopaedia of production techniques in industry), tom I, Erbel Jerzy, Oficyna Wydawnicza Politechniki Warszawskiej, Warszawa, 2001
- 4. Encyklopedia technik wytwarzania stosowanych w przemyśle maszynowym (Encyclopaedia of production techniques in industry), Tom II, Erbel Jerzy, Oficyna Wydawnicza Politechniki Warszawskiej, Warszawa, 2001

Additional bibliography:

- 1. Technologia maszyn (Technology of machines), Okoniewski Stefan, WSiP, Warszawa, 1999
- 2. Dawne wynalazki (Past inventions), James Peter, Thorpe Nick, Świat Książki, Warszawa, 1997
- Powszechna historia techniki (Contemporary history of technology), Bolesław Orłowski, Oficyna Wydawnicza Mówią Wieki;, Warszawa, 2010

Result of average student's workload

Activity	Time (working hours)
1. Participation in lectures	30
2. Attendance and active participation in practical classes	15
3. preparation for the classes	35
4. consultation	25
5. Preparation for the final exam	20
6. final credit and exam	10
