STUDY MODULE DESCRIPTION FORM

Name of the module/subject **Russian as foreign language**	Code **1010534111010910651**

Field of study **Automatic Control and Robotics**	Profile of study (general academic, practical) **general academic**	Year /Semester **1 / 1**

Elective path/specialty **-**	Subject offered in: **Polish**	Course (compulsory, elective) **elective**

Cycle of study: **First-cycle studies**	Form of study (full-time,part-time) **part-time**

No. of hours Lecture: **-** Classes: **30** Laboratory: **-** Project/seminars: **-**	No. of credits **1**

Status of the course in the study program (Basic, major, other) **other**	(university-wide, from another field) **university-wide**

Education areas and fields of science and art **technical sciences**	ECTS distribution (number and %**)** **1 100%**

Responsible for subject / lecturer:	Responsible for subject / lecturer:
mgr Marianna Plakueva-Olejniczak email: mplakueva@yahoo.com tel. 794543579 Centre of Languages and Communication (Inter-Faculty Units) os. Rusa	mgr Marianna Plakueva-Olejniczak email: mplakueva@yahoo.com tel. 794543579 Centre of Languages and Communication (Inter-Faculty Units) os.Rusa

Prerequisites in terms of knowledge, skills and social competencies:

1	**Knowledge**	No need of lexical competence
2	**Skills**	Knowledge of basic grammar structures and basic vocabulary needed on undergraduate studies: understanding of speech and speaking , reading and understanding texts, writing, verbal interaction, listening exercises.
3	**Social competencies**	Ability to work individually and in groups, ability to use different sources of information, ability to use language during travelling.

Assumptions and objectives of the course:

- Gaining min. A2 level of language competence (pre-intermediate CEFR)

- gaining ability of effective use of language

- improving skills connected with functioning on the international job market and in daily life

- improving skills connected with working with professional text (helping students to get to know basic translation techniques

Study outcomes and reference to the educational results for a field of study

Knowledge:

1. Student should know basic general vocabulary and grammar, Russian alphabet, elements of technical Russian. - [-] - [-]

Skills:

1. knows printed and written alphabet   - [-]

2. can understand basic topics and knows pronunciation   - [-]

3. can hold a conversation, ask questions , exchange information   - [-]

4. can present himself/herself and his/her interests, talk about his/her family, describe appearance and character of people of different ages and sexes - [-]

5. can tell the time and name the months of the year   - [-]

6. can ask the way   - [-]

7. can read a text or write a summary of a text after listening to it   - [-]

8. can communicate in Russian, including knowledge of elements of technical language concerning IT (automatics and robotics)   - [-]

Social competencies:

1.   As a result of education student can communicate effectively in Russian with reference to daily situations and has   the necessary skills for presentations   - [-]

2. Student can recognize and use /understand the cultural differences in behavior and business and private talk   in Russian and a different cultural environment.   - [-]

3. Student can express his/her opinion and ask questions to get information - [-]

4. Development of creative use of student?s own lexis , expanding lexis - [-]

5. Using Russian in different contexts and situations - [-]

6. Ability to speak freely and openness to Russian culture - [-]

7. - [[K2_K05 (P7S_KO)]] - [-]

Assessment methods of study outcomes

- asking questions concerning the previous class , discussion.
- grade for short tests (obligatory), homework for volunteers, dictation.
- formative grade, grade during classes (presentations, tests).
- final grade and evaluation of language competences of the student.

Course description

- Knowledge of printed and written alphabet (correct pronunciation and accent), reading and transcription of different words.
- Exercises in which the students have to reach the scheduled objective.
- Exercises in which the learners cooperate in groups.
- Exercises in which the students have to solve a problem, for example take different roles (job interview : employer and employee , foreign student in a new environment, friends? meeting, professor- student relationship , different registers.
- Exercises enabling students to exchange views, comparisons.
- Choice of appropriate texts
- Specialist vocabulary (IT, Automatic Control and Robotics)
- Reading with understanding ,sentence translation
- Training listening with understanding
- Loud speaking
- Grammar exercises
- Songs
- Writing dialogs
- Group work
- Presentations
