	STUDY MODULE D	ESCRIPTION FORM		
Name of the module/subject <b>Statistics</b>			Code 1011105211011100139	
Field of study		Profile of study (general academic, practical	Year /Semester	
Engineering Manag	ement - Part-time studies -	(brak)	1/1	
Elective path/specialty  Communication Management in		Subject offered in: Polish	Course (compulsory, elective) <b>obligatory</b>	
Cycle of study:		Form of study (full-time,part-time	9)	
Second-cycle studies		part-time		
No. of hours			No. of credits	
Lecture: 10 Class	es: 10 Laboratory: -	Project/seminars:	- 3	
Status of the course in the study program (Basic, major, other)  (brak)		(university-wide, from another field) (brak)		
Education areas and fields of science and art			ECTS distribution (number and %)	
email: karol.andrzejczal tel. +48(61) 665-2815 Wydział Elektryczny	ak ∢@put.poznan.pl,			
tel. +48(61) 665-2815 Wydział Elektryczny ul. Piotrowo 3a, 60-965 Prerequisites in ter	c@put.poznan.pl,	<u> </u>		
tel. +48(61) 665-2815 Wydział Elektryczny ul. Piotrowo 3a, 60-965  Prerequisites in ter  1 Knowledge	@put.poznan.pl, Poznań ms of knowledge, skills and	of set theory, logic and math	ematical analysis.	
tel. +48(61) 665-2815 Wydział Elektryczny ul. Piotrowo 3a, 60-965 Prerequisites in ter	e@put.poznan.pl,  Poznań  ms of knowledge, skills and  Student knows basic knowledge	of set theory, logic and math	ematical analysis.	
tel. +48(61) 665-2815 Wydział Elektryczny ul. Piotrowo 3a, 60-965  Prerequisites in ter  1 Knowledge	Poznań  ms of knowledge, skills and  Student knows basic knowledge  Student is able to efficiently draw  Student is aware of the need to define the student to the student to the student to the student is aware of the need to define the student to the student is aware of the student to the student to the student is aware of the student to the student	of set theory, logic and math	ematical analysis.	
tel. +48(61) 665-2815 Wydział Elektryczny ul. Piotrowo 3a, 60-965  Prerequisites in ter  1 Knowledge  2 Skills  3 Social competencies	Poznań  ms of knowledge, skills and  Student knows basic knowledge  Student is able to efficiently draw  Student is aware of the need to define the student to the student to the student to the student is aware of the need to define the student to the student is aware of the student to the student to the student is aware of the student to the student	of set theory, logic and math	ematical analysis.	
tel. +48(61) 665-2815 Wydział Elektryczny ul. Piotrowo 3a, 60-965  Prerequisites in ter  1 Knowledge  2 Skills 3 Social competencies  Assumptions and of	Poznań  Student knows basic knowledge  Student is able to efficiently draw  Student is aware of the need to asset	of set theory, logic and mather of set theory, logic and set theory, logic and set theory, logic and set the set the set theory, logic and set the set theory, logic and set the set theory, logic and set the set the set the set the set theory, logic and set the set	ematical analysis.	
tel. +48(61) 665-2815 Wydział Elektryczny ul. Piotrowo 3a, 60-965  Prerequisites in ter  1 Knowledge  2 Skills  3 Social competencies Assumptions and of to acquire basic probabilist engineering problems.	Poznań  ms of knowledge, skills and Student knows basic knowledge  Student is able to efficiently draw  Student is aware of the need to one  student is aware of the need to one  bjectives of the course:	of set theory, logic and mather of set theory, logic and mather of function graphs, calculate in deepen their knowledge	ematical analysis.  Integrals and derivatives  Integrals and derivatives	
tel. +48(61) 665-2815 Wydział Elektryczny ul. Can formulate their own	Poznań  ms of knowledge, skills and Student knows basic knowledge  Student is able to efficiently draw  Student is aware of the need to objectives of the course: cic and statistical methods and devel  comes and reference to the epth methods of collecting data and wledge of probability and mathematicity and mathematicity of the information from a sample a opinions and obtain statistical data	of set theory, logic and mather of set theory, logic and mather of function graphs, calculate in deepen their knowledge  op the ability to use these me  educational results for extracting information hidden ical statistics, useful to solve and to draw conclusions [[ and the method of analysis.	ematical analysis.  Integrals and derivatives  I	

# Assessment methods of study outcomes

### **Faculty of Engineering Management**

#### Forming rating:

a) auditorium exercises based on the assessment of the current progress of tasks implementation b) understanding of lectures based on answers to questions about the material discussed in previous lectures,

#### Summary rating:

a) exercises based on partial grades obtained for solving tasks on exercises or developing a cross-sectional set of issues,

b) in the field of lectures: final test covering the scope of the material presented in the lectures

#### **Course description**

The basic concepts of probability will be discussed i.e.: probability space, random variables, elements of descriptive statistics, distributions of statistics and their practical applications, methods of statistical inference - estimation, hypothesis verification and analysis of correlation and regression.

#### Teaching methods:

Lecture - informative lecture

Exercises - exercise method

### Result of average student's workload

Activity	Time (working hours)
1. Lectures	10
2. Classes	10
3. Preparation for the classes	20
4. Literature studying	10
5. Preparation for passing classes	10
6. Preparation for passing lectures	10
7. Passing the lecture	2
8. Passing classes	2
9. Consultation	10

## Student's workload

Source of workload	hours	ECTS
Total workload	84	3
Contact hours	34	1
Practical activities	10	1
