Faculty of Engineering Management Strzelecka Str. 11, 60-965 Poznań

Classes: - Laboratory:

1	Knowledge	Basic knowledge of secondary school
2	Skills	Basic computer literacy
ა	Social competencies	Able to work in computer laboratory group
Assun	nptions and obj	ectives of the course:
prepare t	technical reports and	ency in spreadsheet calculations, especially in engineering and planning. They should be able to d documentation in the form of Web pages. They should understand the difference between ent and its graphical view and formatting.
	Study outco	mes and reference to the educational results for a field of study
Knowl	edge:	
	nts are able to descrocuments [[(T1A_\	ribe means for logical structure definition and print and screen formatting in office editors and W02) K1A_W09]
2. Stude	nts understand the t	erminology of Web page construction and operation [(T1A_W02) K1A_W10]
	nts can describe the V05) KInzA_W05]	range of optimization problems that can be solved in spreadsheet applications
Skills:		
1. Stude	nts are able to prepa	are Web pages appropriate for technical and scientific contents [T1A_U05 K1A_U05]
2. Stude	nts are able to solve	a variety of spreadsheet tractable problems [(T1A_W02) K1A_W10]
	nts are able to use p 09) K1A_U09 i (T1A	oroblem solving applications for optimization problems _U14) K1A_U14]
Social	competencies:	
1. Is awa	are of computer data	security and the interests and rights of their users [(T1A_KO2) K1A_K02]
		Assessment methods of study outcomes
-Practica	al tests in laboratorie	s (70%)
Home as	ssianment in informa	tion architecture design (30%)

Faculty of Engineering Management

Course description

Principles of co-operation with the company's Desktop Publishing department. Ways of defining the logical structure and appearance of documents: from office editors and printer control languages to HTML / CSS.

A series of computational tasks in spreadsheets with the emphasis on the conditional and data base functions. Solver and an example of linear programming problem. Preparation of simple HTML documents with a technical report.

Program methods:

- He works with a prince
- Demonstration method
- Laboratory method

Basic bibliography:

- 1. Microsoft documentation for current versions of Excel
- 2. Internet resources for Web developers

Additional bibliography:

- 1. John WalkenbachExcel 2010 Formulas (Mr. Spreadsheet's Bookshelf) Willey 2011
- 2. John Walkenbach, John Walkenbach's Favorite Excel 2010 Tips and Tricks Willey 2011

Result of average student's workload

Activity	Time (working hours)
1. Laboratory classes	30
2. Preparation for the final credits	30
3. Home assignment	5

Student's workload

Source of workload	hours	ECTS
Total workload	65	3
Contact hours	30	1
Practical activities	30	1
