1 Knowledge Student has knowledge on subjects included in educational standards at the 2 level of on Logistics course 0 Ot the standard	
1 Knowledge on Logistics course 0 Student has skills within subjects included in educational standards at the 2 level of s	
	of studies
	tudies on
3 Social competencies Student has social competences within subjects included in educational standards at level of studies on Logistics course	the 2
Assumptions and objectives of the course:	
The goal of the subject is to valorize knowledge acquired during studies for conducting analysis of procurement logi processes and designing changes required for the system	istics
Study outcomes and reference to the educational results for a field of study	
Knowledge:	
1. Student describes strategies, tactic and operational dimensions of logistics management - [K2A_W07]	
2. Student characterizes best practices within production logistics - [K2A_W18]	
Skills:	
1. Student can develop written work on selected issues of logistics and present it - [K2A_U02, K2A_U03]	
2. Student can independently develop knowledge on logistics aspects analyzed in the project - [K2A_U05]	
 Student can design analysis process to assess solutions developed - [K2A_U09] Student can coareh for opfety appears in organization of logistics processes _ [K2A_U12] 	
 4. Student can search for safety aspects in organization of logistics processes - [K2A_U13] 5. Student can make critical analysis of a given process and define improvements or design new solutions - [K2A_U15_K2A_U16_K2A_U17] 	
[K2A_U15, K2A_U16, K2A_U17] Social competencies:	
1. Student can inspire learning process for different people referring to solutions developed - [K2A_K01]	
2. Student can see cause and effect relations of solutions developed and prioritize them - [K1A_K04]	
3. Student is able to present and defend solutions developed - [K2A_K07]	

Assessment methods of study outcomes

Forming rating:		
Supervisor of a project is responsible for running assessment of orga	anizational changes introduced	
Summing rating:		
Assessment of presentation developed by the student, progress of w	ork and discussion on it.	
Course descr	iption	
Analysis of processes/systems of procurement logistics and connect	ed areas of a selected company	1.
Project od changes for selected processes/systems		
Basic bibliography:		
1. Permission for termination of the contract with the diploma thesis	supervisor	
Additional hibliography		
Additional bibliography:
