## Faculty of Transport Engineering

		STUDY MODULE D	ES	CRIPTION FORM	1		
Name of the module/subject Co					de 10604141010639089		
Field of study				Profile of study (general academic, practical)		Year /Semester	
Aerospace Engineering				general academic		2/4	
Elective	path/specialty			Subject offered in:		Course (compulsory, elective)	
Safety and Management of Aviation				Polish obligatory		obligatory	
Cycle of study:			orm of study (full-time,part-time)				
First-cycle studies				part-time			
No. of h	ours					No. of credits	
Lectur	e: - Classes	s: - Laboratory: -	F	Project/seminars:	120	6	
Status c	of the course in the study	program (Basic, major, other)	(1	university-wide, from anoth	er field)		
		other		un	ivers	ity-wide	
Education areas and fields of science and art						ECTS distribution (number and %)	
techr	nical sciences					6 100%	
Technical sciences						6 100%	
Resp	onsible for subje	ect / lecturer:					
	Łukasz Brodzik						
	ail: lukasz.brodzik@pu 61 665-2214	t.poznan.pl					
	ulty of Transport Engi	neering					
	rowo 3 street, 60-965	3					
Prere	quisites in term	s of knowledge, skills an	d so	ocial competencie	es:		
1	Knowledge	has knowledge of the current rules for the implementation of internships, knows the rules of practice and the conditions for their passing, has basic knowledge of the issues covered by the study program					
2	Skills	has the ability to creatively use the knowledge acquired during studies					
3	Social competencies	can work in a working group, is able to make a fair division of tasks in a group in a transparent way, can correctly interpret and perform the tasks he has been given and can make a verbal presentation of the results of his work					
Assumptions and objectives of the course:							
-Verification of the theoretical knowledge possessed by the student with reality, gaining new professional experience in real working conditions							
	Study outco	mes and reference to the	edı	ıcational results f	or a f	ield of studv	
						· · · · · · · · · · · · · · · · · · ·	

### Knowledge:

1. has an extended basic knowledge necessary for understanding specialist subjects and specialist knowledge on building methods of machine construction - [[K1A\_W23]]

#### Skills:

1. can prepare technical documentation descriptively - drawing engineering tasks - [[K1A\_U06]]

### Social competencies:

1. is aware of the importance and understands the non-technical aspects and effects of engineering activities, including its impact on the environment and the related responsibility for decisions - [[K1A\_K02]]

## Assessment methods of study outcomes

-Assessment of practices on the basis of a report on the implementation of practices, certified by the company, assessment of the supervisor of the company's practices.

### **Course description**

-Getting to know the functioning of production or service enterprises that carry out activities related to design, manufacture or operation in the field of aviation and aeronautics

# Faculty of Transport Engineering

## Basic bibliography:

- 1. Rules for the implementation of WIT practices
- 2. Framework program of practices at WIT
- 3. Forms of documents necessary for the implementation of the agreement practices, report, detailed practices program

## Additional bibliography:

### Result of average student's workload

Activity	Time (working hours)
1. Practical classes	0

### Student's workload

Source of workload	hours	ECTS	
Oddice of Workload	Hours	2010	
Total workload	120	6	
Contact hours	1	1	
Practical activities	119	5
