Assessment methods of study outcomes							
-Assessment of practices on the basis of a report on the implementation of practices, certified by the company, assessment of the company's practices							

Course description

-Getting to know the functioning of production or service enterprises that carry out activities related to design, manufacture or operation in the field of aviation and aeronautics

Basic bibliography:

1. Rules for the implementation of WIT practices

2. Framework program of practices at WIT

3. Forms of documents necessary for the implementation of the agreement practices, report, detailed practices program

Additional bibliography:
