## Faculty of Transport Engineering

STUDY MODULE DESCRIPTION FORM						
Name of the module/subject  English			-	Code 1010601131010910578		
Field of study			Profile of study (general academic, practical)	Year /Semester		
Aerospace Engineering			general academic	2/3		
Safety and Management of Aviation			Subject offered in:  Polish	Course (compulsory, elective) <b>obligatory</b>		
Cycle of study: Form of study (full-time,part-time)						
First-cycle studies			full-time			
No. of h	ours			No. of credits		
Lectur	e: - Classes	s: <b>2</b> Laboratory: -	Project/seminars:	2		
Status of the course in the study program (Basic, major, other)			(university-wide, from another field)			
		other	univer	university-wide		
Education	on areas and fields of sci	ence and art		ECTS distribution (number and %)		
technical sciences				2 100%		
Resp	onsible for subje	ect / lecturer:	Responsible for subject	/ lecturer:		
	a Ciałkowska-Guenthe	<del></del> -	Kinga Komorowska			
	-	unther@put.poznan.pl	email: kinga.komorowska@put.poznan.pl			
	(61)6652491 tre for Languages and	1 Communication	tel. (61)6652491			
	rowo 3a, 60-965 Pozr		Centre for Languages and Communication Piotrowo 3a, 60-965 Poznań			
Prere	quisites in term	s of knowledge, skills an	d social competencies:			
1	Knowledge	As a result of the course, the student ought to acquire field specific vocabulary related to the following issues:				
maths, describing graphs avoidir operations			ng miscommunication, airport layout, ICAO alphabet, ground			
2	Skills	As a result of the course student is able to:				
۷		Give a talk on field specific or popular science topic (in English) and discuss general and field specific issues using an appropriate linguistic and grammatical repertoire				
		Express basic mathematical f describe a graph in English	I formulas and to interpret data presented on graphs/diagrams,			
3		As a result of the course:				
	Social competencies	1. the student is able to communicate effectively in a field specific/professional area, and to give a successful presentation in English.				
A	The student is able to recognize and understand cultural differences in a professional a private conversation, and in a different cultural environment.					
	•	ectives of the course:				
<ol> <li>Advancing students? language competence towards at least level B2 (CEFR).</li> <li>Development of the ability to use academic and field specific language effectively in both receptive and productive</li> </ol>						
language skills.						
<ul><li>3. Improving the ability to understand field specific texts (familiarizing students with basic translation techniques).</li><li>4. Improving the ability to function effectively on an international market and on a daily basis.</li></ul>						
T. IIIIPI				field of study		
Study outcomes and reference to the educational results for a field of study						
Knowledge:						
1. The already acquired language competence compatible with level B1 (CEFR) - [-]						
Skills:  1. The ability to use vocabulary and grammatical structures required on the high school graduation exam with regard to						
	tive and receptive skil					

1. The ability to work individually and in a group; the ability to use various sources of information and reference works. - [-]

# Faculty of Transport Engineering

- ? Formative assessment: continuous assessment, tests (written and oral), MT test
- ? Summative assessment: credit

#### **Course description**

- ? Issues and vocabulary related to basic maths terms and graph description
- ? Vocabulary connected with aviation communication, ICAO alphabet, airport layout and ground operations
- ? Terminology related to aircraft basic construction
- ? Ground operations ? vocabulary connected with the movement of aircraft on the airport
- ? Technology used in flight control
- ? Instruments in cockpit
