	Study outco	mes and reference to the	educational results for	r a field of study		
Know	/ledge:					
		e field of law, in particular law on on the field of law, in particular law on the test of technology, can use the reso				
Skills						
1. has the ability to self-study using modern teaching tools, such as remote lectures, websites and databases, didactic programs, e-books - [K1A_U03]						
2. can use verbal communication in one additional foreign language at the level of everyday language, can describe issues in						
the field of the studied field of study in this language, can prepare technical documentation descriptively - drawing engineering, transport and / or logistic tasks - [K1A_U07]						
Social competencies:						
1. understands the need to learn throughout life; can inspire and organize the learning process of other people - [K1A_K01]						
2. is aware of the importance and understands the non-technical aspects and effects of engineering activities, including its impact on the environment, and the related responsibility for decisions - [K1A_K02]						
	Assessment methods of study outcomes					
compu	computer exam using Aviationexam software					

Course description

Intellectual property protection. International agreements and aviation organizations. Organization of International Civil Aviation. European aviation organizations. National aviation law. Civil Aviation Authority. Regulations on the licensing of flight crew. Air traffic management system. Air navigation services. Air traffic control services - organization, objectives and scope of application. Area control service - separation minima. Air traffic control permits. Communication procedures. Proximity control service - procedures for arriving and departing aircraft. Airport control service - airport control tower tasks. Air traffic control in the area and at the airport. Air information services - organization, goals and application. Emergency service. Airspace. Region of flight information. Controlled space. Uncontrolled space. General rules of air traffic. Rules for operating VFR flights. IFR flight regulations. Air traffic controlled. International flights. Flights in uncontrolled space. Operations of aircraft. Arrival and departure procedures. Approach procedures. Waiting procedures. Procedures for setting the altimeter. Procedures for using a secondary radar transponder. Aeronautical information services. Use of aeronautical information service publications. Regulatory mechanisms used in air traffic flow management.

Basic bibliography:

1. Ustawa z dnia 3 lipca 2002 r. ? Prawo lotnicze (Dz. U. z 2013 r. poz. 1393 z późn. zm oraz z 2014 r. poz. 768 z późn. zm)

2. Konwencja o międzynarodowym lotnictwie cywilnym, podpisana w Chicago dnia 7 grudnia 1944 r. - Konwencja

chicagowska (Dz. U z 1959 r. Nr 35, poz. 212, z późn. zm) wraz z załącznikami

3. Doc 4444 - Zarza?dzanie ruchem lotniczym

4. Doc 7030/4 - Regionalne Procedury Uzupełniaja?ce dla Regionu Europy

5. Doc 8168 - Operacje statko?w powietrznych

Additional bibliography:

Result of average student's workload				
Activity	Time (working hours)			
1. Participation in classes (according to plan)		15		
2. Preparation for the exam / pass	10			
3. Participation in the exam / pass	1			
Student's wo	rkload			
Source of workload	hours	ECTS		
Total workload	26	1		
Contact hours	16	1		
Practical activities	26	1
