STUDY MODULE DESCRIPTION FORM						
Name of Engl	f the module/subject ish			Code 1010601161010910578		
Field of s	study		Profile of study	Year /Semester		
Aerospace Engineering			(general academic, practical) (brak)	3/6		
Elective path/specialty			Subject offered in: Polish	Course (compulsory, elective)		
			Form of study (full-time,part-time)	obligatory		
First-cycle studies			full-time			
No. of hours				No. of credits		
Lecture: 0 Classes: 2 Laboratory: -			Project/seminars:	- 2		
Status o	f the course in the study	program (Basic, major, other)	(university-wide, from another fi	eld)		
		(brak)	(brak)			
Education areas and fields of science and art				ECTS distribution (number and %)		
Responsible for subject / lecturer: Responsible for subject / lecturer:						
Eliza Ciałkowska-Guenther			Kinga Komorowska			
ema	il: eliza.cialkowska-gu	inther@put.poznan.pl	email: kinga.komorowska@	email: kinga.komorowska@put.poznan.pl		
tel. (61)6652491 Centre for Languages and Communication			Centre for Languages and (Centre for Languages and Communication		
Piot	rowo 3a, 60-965 Pozr	lań	Piotrowo 3a, 60-965 Pozna	Piotrowo 3a, 60-965 Poznań		
Prere	quisites in term	s of knowledge, skills an	d social competencies:			
1	Knowledge	ific vocabulary related to the				
2	Skills	Landings (landing gear and braking, undercarriage), technical problems in aviation, fuel (aviation and global warming, fuel icing, gliders), guided writing, elements of grammar				
		As a result of the course student is able to:				
		1. Give a talk on field specific or popular science topic (in English) and discuss general and field specific issues using an appropriate linguistic and grammatical repertoire				
		2. Express basic mathematical formulas and to interpret data presented on graphs/diagrams, describe a graph in English				
3	Social	As a result of the course:				
		1. the student is able to communicate effectively in a field specific/professional area, and to give a successful presentation in English.				
	competencies	2. The student is able to recognize and understand cultural differences in a professional and				
Assu	mptions and obj	ectives of the course:				
1. Adva	ancing students? lang	uage competence towards at leas	t level B2 (CEFR).			
2. Deve langua	elopment of the ability ge skills.	to use academic and field specified	c language effectively in both re	ceptive and productive		
3. Improving the ability to understand field specific texts (familiarizing students with basic translation techniques).						
4. Improving the ability to function effectively on an international market and on a daily basis.						
	Study outco	mes and reference to the	educational results for	a field of study		
Know	/ledge:					
1. The Skills	already acquired lang	uage competence compatible with	n level B1 (CEFR) - [-]			
1. The ability to use vocabulary and grammatical structures required on the high school graduation exam with regard to productive and receptive skills - [-]						
Social competencies:						
1. The ability to work individually and in a group; the ability to use various sources of information and reference works [-]						
Assessment methods of study outcomes						

? Formative assessment: continuous assessment, tests (written and oral), MT	test				
? Summative assessment: credit					
Course description					
? Issues and vocabulary related to basic maths terms and graph description					
? Vocabulary connected with aviation communication, ICAO alphabet, airport layout					
and ground operations					
2 Ground operations 2 vocabulary connected with the movement of aircraft on the					
airport					
? Technology used in flight control					
? Instruments in cockpit
