

<b>STUDY MODULE DESCRIPTION FORM</b>		
Name of the module/subject <b>Introduction to logistics</b>		Code <b>1010611271010605973</b>
Field of study <b>Mechanical Engineering</b>	Profile of study (general academic, practical) <b>general academic</b>	Year /Semester <b>4 / 7</b>
Elective path/specialty <b>Food Industry Machines and Refrigeration</b>	Subject offered in: <b>Polish</b>	Course (compulsory, elective) <b>obligatory</b>
Cycle of study: <b>First-cycle studies</b>	Form of study (full-time, part-time) <b>full-time</b>	
No. of hours Lecture: <b>1</b> Classes: <b>-</b> Laboratory: <b>-</b> Project/seminars: <b>-</b>		No. of credits <b>1</b>
Status of the course in the study program (Basic, major, other) <b>other</b>		(university-wide, from another field) <b>university-wide</b>
Education areas and fields of science and art <b>technical sciences</b> <b>Technical sciences</b>		ECTS distribution (number and %) <b>1 100%</b> <b>1 100%</b>
<b>Responsible for subject / lecturer:</b>  dr inż. Szymon Fierek email: <a href="mailto:szymon.fierek@put.poznan.pl">szymon.fierek@put.poznan.pl</a> tel. 616652716 Faculty of Transport Engineering ul. Piotrowo 3 60-965 Poznań		
<b>Prerequisites in terms of knowledge, skills and social competencies:</b>		
<b>1</b>	<b>Knowledge</b>	The student has a basic knowledge of the place of transport in the system of economy, science and relations with other areas of knowledge. The student knows and understands the basic methods and practical tools from the description of transport. The student knows the main tasks of transport in the area of operation and economic development of enterprises and the state.
<b>2</b>	<b>Skills</b>	The student knows how to use the concepts and methods in the description of technical and economic problems. The student can use the acquired knowledge to analyze specific phenomena and processes occurring in technical and economic systems. The student is able to solve specific tasks appearing in technical and economic systems.
<b>3</b>	<b>Social competencies</b>	The student is able to cooperate in a group, taking various roles in it. The student can determine the priorities important in solving the tasks set before him. Student demonstrates independence in solving problems, acquiring and improving acquired knowledge and skills.
<b>Assumptions and objectives of the course:</b> The aim of the course is to provide students with information on logistics, definitions and concepts. Students acquire knowledge and skills in the field of logistics functioning within various industrial and service enterprises, in various branches of transport and warehouse management.		
<b>Study outcomes and reference to the educational results for a field of study</b>		
<b>Knowledge:</b>		
1. Has elementary knowledge of economics and economics of industrial enterprises, the banking system, commercial law, and business accounting - [M1_W024]		
<b>Skills:</b>		
1. Has the ability to self-study using modern teaching tools, such as remote lectures, websites and databases, didactic programs, e-books - [M1_U27]		
<b>Social competencies:</b>		
1. Is ready to think and act in an entrepreneurial way - [M1_K05]		

<b>Assessment methods of study outcomes</b>		
Final test		
<b>Course description</b>		
General definitions of logistics, logistic tasks, outline of logistics history, logistic development stages, logistic customer service and its main elements, measures and customer service standards based on selected market segments, inventory renewal cycle, basic methods of inventory renewal, ABC / XYZ method of stock classification at based on selected market segments, components of full logistic costs, comparison of logistics costs in various modes of transport, basics of forecasting demand,

<b>Result of average student's workload</b>		
Activity	Time (working hours)	
1. Preparation for the lecture	1	
2. Participation in the lecture	15	
3. Fixing the content of the lecture	4	
4. Consultations for lectures	4	
5. Preparation for passing	10	
6. Participation in the credit	1	
<b>Student's workload</b>		
Source of workload	hours	ECTS
Total workload	35	1
Contact hours	20	0
Practical activities	0	0
