## POZNAN UNIVERSITY OF TECHNOLOGY

#### EUROPEAN CREDIT TRANSFER AND ACCUMULATION SYSTEM (ECTS)

pl. M. Skłodowskiej-Curie 5, 60-965 Poznań

## **COURSE DESCRIPTION CARD - SYLLABUS**

Course name

Research project

Course

Field of study

Inżynieria zarządzania / Engineering Management

Area of study (specialization)

All specializations

Level of study

Second-cycle studies

Form of study

full-time

Year/Semester

2/3

Profile of study

general academic

Course offered in

English

Requirements

compulsory

#### **Number of hours**

Lecture Laboratory classes Other (e.g. online)

Tutorials Projects/seminars

120

**Number of credit points** 

5

#### **Lecturers**

Responsible for the course/lecturer: Responsible for the course/lecturer: prof. dr hab. inż. Stefan Trzcieliński prof. dr hab. inż. Leszek Pacholski

## **Prerequisites**

The student possesses knowledge, skills and social competences necessary to register for the third semester of Master program.

## **Course objective**

Collecting data on the research problem undertaken in the master's thesis, their processing and development of research results.

## POZNAN UNIVERSITY OF TECHNOLOGY

#### EUROPEAN CREDIT TRANSFER AND ACCUMULATION SYSTEM (ECTS)

pl. M. Skłodowskiej-Curie 5, 60-965 Poznań

## **Course-related learning outcomes**

## Knowledge

Knowledge in the field of: research methodology; methods of conducting scientific research adequate to the problem being solved; methods for solving the research problem.

#### Skills

Skills in: using and expanding acquired knowledge; proposing solutions for a specific management problem; analyzing the cause and course of social processes and phenomena (cultural, political, legal, economic); formulating simple research hypotheses and verifying them; presenting research results.

#### Social competences

Social competences in: supplementing knowledge from external sources and acquiring and sharing it with participants of research team; organizing own work in the context of the goals set for the team; reliable conducting and publishing of scientific research results.

#### Methods for verifying learning outcomes and assessment criteria

Learning outcomes presented above are verified as follows:

Ongoing assessment of the progress of the MA dissertation; final evaluation of the master's dissertation; assessment of verbal and visual presentation and fragments of master dissertation.

## **Programme content**

Formulation of the research problem; literature analysis of the problem; identification of the research gap; defining the purpose of research; developing research methodology; collecting empirical data; data processing; development and discussion of research results; defining the practical usefulness of research results and the limits of their application.

#### **Teaching methods**

Individual literature studies; case studies; design method.

## **Bibliography**
