## POZNAN UNIVERSITY OF TECHNOLOGY

### EUROPEAN CREDIT TRANSFER AND ACCUMULATION SYSTEM (ECTS)

pl. M. Skłodowskiej-Curie 5, 60-965 Poznań

## **COURSE DESCRIPTION CARD - SYLLABUS**

Course name

English - specialist language

**Course** 

Field of study Year/Semester

Aerospace Engineering 1/2

Area of study (specialization) Profile of study

general academic

Level of study Course offered in

Second-cycle studies Polish

Form of study Requirements full-time compulsory

**Number of hours** 

Lecture Laboratory classes Other (e.g. online)

1

Tutorials Projects/seminars

## **Number of credit points**

2

#### **Lecturers**

Responsible for the course/lecturer: Responsible for the course/lecturer:

mgr Kinga Komorowska Eliza Ciałkowska-Günther

Centrum Języków i Komunikacji Centrum Języków i Komunikacji

ul. Piotrowo 3A, 60-965 Poznań ul. Piotrowo 3A, 60-965 Poznań

## **Prerequisites**

When entering the course a student ought to have language competence corresponding to a minimum level of B2 according to the description of language proficiency levels (CEFR). They ought to be able to obtain information from literature, databases and other sources. They also should be aware of the responsibility for their own work, be ready to comply with the principles of teamwork and take responsibility for their role as well as be aware of the importance of professional behaviour and follow the rules of professional ethics.

### **Course objective**

1. Developing the skills of effective use of general and specialist languages in a work environment.

## POZNAN UNIVERSITY OF TECHNOLOGY

### EUROPEAN CREDIT TRANSFER AND ACCUMULATION SYSTEM (ECTS)

pl. M. Skłodowskiej-Curie 5, 60-965 Poznań

- 2. Improving the skills of working with technical texts on technical issues.
- 3. Improving the ability to function on the international job market.

## **Course-related learning outcomes**

### Knowledge

- 1. has extended knowledge of English technical terminology related to aviation engineering
- 2. has extended specialist knowledge to describe in English the construction of aircraft, methods of construction, manufacture, operation, control of aircraft, safety systems, impact on the economy, society and the environment in the field of aviation engineering for chosen specialties
- 3. has basic specialized English vocabulary necessary to describe the social, economic, legal and other non-technical conditions of engineering activities

#### Skills

- 1. knows how to use English in verbal communication at the everyday language level and is able to describe issues from the field of study in this language
- 2. has the ability to self-study in English using modern teaching tools, such as websites, teaching programs, e-books
- 3. can obtain information from literature, the Internet and other sources. Is able to integrate obtained information, interpret and draw conclusions from them in English

#### Social competences

- 1. Is aware of the importance of maintaining the principles of professional ethics
- 2. Understands the need for critical assessment of knowledge and continuous learning
- 3. can inspire and organize the learning process of others

## Methods for verifying learning outcomes and assessment criteria

Learning outcomes presented above are verified as follows:

- 1. Formative assessment: current assessment during classes (presentations, tests)
- 2. Summative assessment: passing grade (credit)

#### **Programme content**

- 1. Combustion chambers introduction
- 2. Types of combustion chamber
- 3. Exhaust systems
- 4. Component life cycle
- 5. New directions of space exploration

## POZNAN UNIVERSITY OF TECHNOLOGY

## EUROPEAN CREDIT TRANSFER AND ACCUMULATION SYSTEM (ECTS)

pl. M. Skłodowskiej-Curie 5, 60-965 Poznań

- 6. Construction of shuttles
- 7. Presentations on the master's theses

## **Teaching methods**

Practical language exercises - presentation and consolidation of language content and skills illustrated with multimedia, examples on the board, written exercises, oral exercises (dialogues, discussions, building argumentation), listening and reading exercises.

# **Bibliography**

### Basic

1. Czerwiński, Piotr. Fleszar, Mateusz. 2015. English for Aviation Engineering. Rzeszów: Oficyna wydawnicza Politechniki Rzeszowskiej
