## POZNAN UNIVERSITY OF TECHNOLOGY

EUROPEAN CREDIT TRANSFER AND ACCUMULATION SYSTEM (ECTS)

pl. M. Skłodowskiej-Curie 5, 60-965 Poznań

# **COURSE DESCRIPTION CARD - SYLLABUS**

Course name

English

Course

Field of study Year/Semester

Aerospace Engineering 2/4

Area of study (specialization) Profile of study

general academic
Course offered in

First-cycle studies Polish

Form of study Requirements

full-time compulsory

**Number of hours** 

Level of study

Lecture Laboratory classes Other (e.g. online)

1

Tutorials Projects/seminars

**Number of credit points** 

2

## Lecturers

Responsible for the course/lecturer: Responsible for the course/lecturer:

mgr Kinga Komorowska Eliza Ciałkowska-Günther

ul. Piotrowo 3A, 60-965 Poznań ul. Piotrowo 3A, 60-965 Poznań

#### **Prerequisites**

When entering the course a student ought to have language competence corresponding to a minimum

## POZNAN UNIVERSITY OF TECHNOLOGY

#### EUROPEAN CREDIT TRANSFER AND ACCUMULATION SYSTEM (ECTS)

pl. M. Skłodowskiej-Curie 5, 60-965 Poznań

level of B1 according to the description of language proficiency levels (CEFR). They ought to be able to obtain information from literature, databases and other sources. They also should be aware of the responsibility for their own work, be ready to comply with the principles of teamwork and take responsibility for their role as well as be aware of the importance of professional behaviour and follow the rules of professional ethics.

## **Course objective**

- 1. Bringing the language competence of students to the minimum level B2 (CEFR).
- 2. Developing the skills of effective use of the academic language and a specialist language appropriate for a given field, in terms of four language skills.
- 3. Improving the skills of working with technical texts on technical issues.
- 4. Improving the ability to function on the international labour market and in everyday life.

#### **Course-related learning outcomes**

#### Knowledge

- 1. has extended knowledge of English technical terminology related to aviation engineering
- 2. has extended specialist knowledge to describe in English the construction of aircraft, methods of construction, manufacture, operation, control of aircraft, safety systems, impact on the economy, society and the environment in the field of aviation engineering.
- 3. has basic specialized English vocabulary necessary to describe the social, economic, legal and other non-technical conditions of engineering activities

#### Skills

- 1. knows how to use English in verbal communication at the everyday language level and is able to describe issues from the field of study in this language
- 2. has the ability to self-study in English using modern teaching tools, such as websites, teaching programs, e-books
- 3. can obtain information from literature, the Internet and other sources. Is able to integrate obtained information, interpret and draw conclusions from them in English

#### Social competences

- 1. Is aware of the importance of maintaining the principles of professional ethics
- 2. Understands the need for critical assessment of knowledge and continuous learning
- 3. can inspire and organize the learning process of others

#### Methods for verifying learning outcomes and assessment criteria

Learning outcomes presented above are verified as follows:

1. Formative assessment: current assessment during classes (presentations, tests)

## POZNAN UNIVERSITY OF TECHNOLOGY

#### EUROPEAN CREDIT TRANSFER AND ACCUMULATION SYSTEM (ECTS)

pl. M. Skłodowskiej-Curie 5, 60-965 Poznań

2. Summative assessment: passing grade (credit)

## **Programme content**

- 1. Technologies used in air communication,
- 2. Flight control systems
- 3. Instruments in the cockpit and dangerous situations related to their failure
- 4. Dangerous situations arising from the presence of animals at the airport and in its airspace
- 5. Collision of an airborne plane with a bird
- 6. Aircraft control surfaces principles related to aircraft manoeuvring
- 7. Advantages and disadvantages of rotor aircraft
- 8. Gravity maneuvering an aircraft
- 9. Aerobatics

#### **Teaching methods**

Practical language exercises - presentation and consolidation of language content and skills illustrated with multimedia, examples on the board, written exercises, oral exercises (dialogues, discussions, building argumentation), listening and reading exercises, interactive online exercises (e.g. Kahoot, Quizlet)

#### **Bibliography**

#### Basic

- 1. Emery, Henry. Roberts, Andy. 2008. Aviation English for ICAO Compliance. Macmillan
- 2. Czerwiński, Piotr. Fleszar, Mateusz. 2015. English for Aviation Engineering . Rzeszów: Oficyna wydawnicza Politechniki Rzeszowskiej

#### Additional

- 1. Ellis, Ssue. Gerighty, Terence 2012. English for Aviation. Oxford
- 2. Czerwiński, Piotr. Fleszar, Mateusz. 2018. Expect the Unexpected . Rzeszów: Oficyna wydawnicza Politechniki Rzeszowskiej
