Course-related learning outcomes

Knowledge

As a result of the course, the student ought to acquire field specific vocabulary related to the following issues:

- 1. English for academic purposes an abstract
- 2. Electrolysis
- 3. Electroplating
- 4. Petrochemicals and polymers
- 5. Addition and condensation polymerisation
- 6. Catalysts
- 7. Nanomaterials
- 8. Presentation of students' engineering theses

and also define and explain notions, phenomena and processes connected with them.

K_W03, K_W06, P7S_WG

Skills

As a result of the course, the student is able to:

- give a talk on field specific or popular science topic (in English)

- discuss general and field specific issues using an appropriate linguistic and grammatical repertoire,

- formulate a text in English where he/she explains/describes a selected field specific topic, understand and analyze international, field specific literature

- give a presentation of his/her engineering thesis

K_U01, K_U03, K_U06, P_7SUK

Social competences

As a result of the course, the student is able to communicate effectively in a field specific/professional area, and to give a successful presentation in English.

He/she is able to recognize and understand cultural differences in a professional and private conversation, and in a different cultural environment.

Methods for verifying learning outcomes and assessment criteria

Learning outcomes presented above are verified as follows:

- Formative assessment: tests during academic year (written and oral) presentations
- Summative assessment: credit

Programme content

- 1. English for academic purposes an abstract
- 2. Electrolysis
- 3. Electroplating
- 4. Petrochemicals and polymers
- 5. Addition and condensation polymerisation
- 6. Catalysts
- 7. Nanomaterials
- 8. Presentation of students' engineering theses

Teaching methods

work with texts, discussion, team work, translation, films, individual written and oral deliverance, individual meetings with students, homework analysis, classes on e-meeting platform, Moodle platform exercises...
