

COURSE DESCRIPTION CARD - SYLLABUS

Course name

German language

Course

Field of study

Product Lifecycle Engineering

Area of study (specialization)

Level of study

Second-cycle studies

Form of study

full-time

Year/Semester

1/1

Profile of study

general academic

Course offered in

German

Requirements

elective

Number of hours

Lecture

Laboratory classes

Other (e.g. online)

Tutorials

Projects/seminars

30

Number of credit points

3

Lecturers

Responsible for the course/lecturer:

mgr Joanna Skrobała

Responsible for the course/lecturer:

email: joanna.skrobala@put.poznan.pl

tel. 61 665 24 91

Centrum Języków i Komunikacji

ul. Piotrowo 3a, 60-965 Poznań

Prerequisites

The already acquired language competence compatible with level B2 (CEFR)

The ability to use vocabulary and grammatical structures required on the first level of studies

The ability to work individually and in a group; the ability to use various sources of information and reference works.

Course objective

Advancing students' language competence towards at least level B2+ (CEFR).

Development of the ability to use academic and field specific language effectively in both receptive and productive language skills.

Improving the ability to understand field specific texts (familiarizing students with basic translation techniques).

Improving the ability to function effectively on an international market and on a daily basis.

Course-related learning outcomes

Knowledge

As a result of the course, the student ought to acquire field specific vocabulary related to the following issues:

- Qualifications and competences in the workplace.
- Applying for jobs

and to be able to define and explain associated terms, phenomena and processes.

Skills

As a result of the course, the student is able to:

- give a talk on field specific or popular science topic (in German), and discuss general and field specific issues using an appropriate linguistic and grammatical repertoire,

formulate a text in German where he/she explains/describes a selected field specific topic.

Social competences

As a result of the course, the student is able to communicate effectively in a field specific/professional area, and to give a successful presentation in German.

The student is able to recognize and understand cultural differences in a professional and private conversation, and in a different cultural environment.

Methods for verifying learning outcomes and assessment criteria

Learning outcomes presented above are verified as follows:

Formative assessment: tests during academic year (written and oral), presentations

Summative assessment: credit

Programme content

CV, job interviews, public speaking

grammar issues at B2 + level

Teaching methods

work with texts, discussion, team work, translation, films, individual written and oral deliverance, individual meetings with students, homework analysis, Moodle platform exercises.
