

COURSE DESCRIPTION CARD - SYLLABUS

Course name

Air Law

Course

Field of study

Aerospace Engineering

Area of study (specialization)

Level of study

First-cycle studies

Form of study

full-time

Year/Semester

1/2

Profile of study

general academic

Course offered in

polish

Requirements

compulsory

Number of hours

Lecture

20

Tutorials

Laboratory classes

Projects/seminars

Other (e.g. online)

Number of credit points

1

Lecturers

Responsible for the course/lecturer:

mgr pil. Wojciech Nowaczyk

Wydział Inżynierii Środowiska i Energetyki

email: wojciech.nowaczyk@put.poznan.pl

tel. +48 500 123 360

Responsible for the course/lecturer:

dr hab. inż. Agnieszka Wróblewska, prof.PP

Wydział Inżynierii Środowiska i Energetyki

email: agnieszka.wroblewska@put.poznan.pl

tel. 61 665 2201

Prerequisites

A student starting this subject should have basic knowledge of aviation law and intellectual property

protection. He should also have the ability to apply the scientific method in solving problems and be ready to cooperate within a team.

Course objective

To acquaint the student with the activities of Aviation Organizations, regulations on the licensing of aviation personnel, and air traffic management system.

Course-related learning outcomes

Knowledge

1. has expanded knowledge necessary to understand profile subjects and specialist knowledge about construction, methods of construction, manufacture, operation, aircraft control, safety systems, economic, social and environmental impact in the field of aviation engineering for selected specialties:

1. Piloting of aircraft

2. Aero engines and airframes

2. has basic knowledge necessary to understand social, economic, legal and other non-technical conditions of engineering activities.

3. has basic knowledge in the field of ethics and law, in particular civil aviation law, copyright law, protection of industrial property and its impact on the development of technology.

Skills

1. has the ability to self-study using modern teaching tools, such as remote lectures, websites and databases, teaching programs, e-books.

2. can obtain information from literature, the Internet, databases and other sources. Is able to integrate obtained information, interpret and draw conclusions from them.

3. is able to apply basic technical standards regarding safety.

Social competences

1. is aware of the importance of maintaining the principles of professional ethics.

2. is able to properly set priorities for the implementation of the task specified by himself or others based on available knowledge.

3. Understands the need for critical assessment of knowledge and continuous learning.

Methods for verifying learning outcomes and assessment criteria

Learning outcomes presented above are verified as follows:

Lecture:

- assessment of knowledge and skills demonstrated on the written test - 1.5 hour

Programme content

Lecture:

International Law - Convention on International Civil Aviation (Chicago), Convention on the High Seas. General principles and definitions. Airworthiness of aircraft, aircraft nationality and registration marks. Personnel licensing. Aerodromes. Search and rescue (SAR).

PART-66 (THEORY - 11.25 hours)

MODULE 10. AVIATION REGULATIONS

10.1 Regulatory framework

Role of the International Civil Aviation Organization; Role of the European Commission; EASA's role; Role of the Member States and National Aviation Authorities; Regulation (EC) No 216/2008 and its implementing rules, Regulations (EC) No 1702/2003 and 2042/2003. Relationship between individual attachments (parts) such as part-21, Part-M, Part-145, Part-66, Part-147 and UE-OPS [1]

10.2 Certifying staff - maintenance

Detailed understanding of Part-66. [2]

10.3 Approved maintenance organizations

Detailed understanding of Part-145 and Part-M subsection F. [2]

Teaching methods

1. Lecture: multimedia presentation, illustrated with examples given on the board.

Bibliography

Basic

1. Ustawa z dnia 3 lipca 2002 r. – Prawo lotnicze (Dz. U. z 2013 r. poz. 1393 oraz z 2014 r. poz. 768)
2. Konwencja o międzynarodowym lotnictwie cywilnym, podpisana w Chicago dnia 7 grudnia 1944 r. - Konwencja chicagowska (Dz. U z 1959 r. Nr 35, poz. 212, z późn. zm) wraz z załącznikami
3. Doc 4444 - Zarządzanie ruchem lotniczym
4. Doc 7030/4 - Regionalne Procedury Uzupełniające dla Regionu Europy
5. Doc 8168 - Operacje statków powietrznych

Additional

Breakdown of average student's workload

	Hours	ECTS
Total workload	46	1,0
Classes requiring direct contact with the teacher	21	0,4
Student's own work (literature studies, preparation for written tests) ¹	25	0,6

¹ delete or add other activities as appropriate
