

COURSE DESCRIPTION CARD - SYLLABUS

Course name

Principles of market economy and organization

Field of study

Material Engineering

Area of study (specialization)

-

Level of study

First-cycle studies

Form of study

full-time

Course

Year/Semester

I/2

Profile of study

general academic

Course offered in

polish

Requirements

elective

Number of hours

Lecture

30

Laboratory classes

0

Tutorials

0

Projects/seminars

0

Other (e.g. online)

0

Number of credit points

3

Lecturers

Responsible for the course/lecturer:

dr Małgorzata Rembiasz

Responsible for the course/lecturer:

malgorzata.rembiasz@put.poznan.pl

Prerequisites

The student starting this subject should have a basic knowledge of entrepreneurship and use the basic terms acquired during their study. He should also be able to obtain information from specified sources and assess media information. In addition, he should be ready and able to cooperate in a group.

Course objective

Students learn theoretical and practical knowledge of the basic principles of market economy functioning, enterprise management and analysis of the economic processes taking place in them. The aim of the course is also to develop students' skills in solving problems arising in the management of enterprise resources.

Course-related learning outcomes

Knowledge

The student has the general knowledge necessary to understand the economic determinants of engineering activities.

The student has basic knowledge regarding management and conducting business activities.

The student has knowledge of the principles of creating and developing forms of individual entrepreneurship associated with the studied field of

Skills

The student works individually and cooperates effectively in the team.

The student has the ability to self-study.
