# POZNAN UNIVERSITY OF TECHNOLOGY

#### EUROPEAN CREDIT TRANSFER AND ACCUMULATION SYSTEM (ECTS)

pl. M. Skłodowskiej-Curie 5, 60-965 Poznań

# **COURSE DESCRIPTION CARD - SYLLABUS**

Course name

Car construction

Course

Field of study Year/Semester

Mechanical and Automotive Engineering 3/5

Area of study (specialization) Profile of study

Motor vehicles general academic
Level of study Course offered in

First-cycle studies polish

Form of study Requirements

full-time elective

Number of

hours

Lecture Laboratory classes Other (e.g. online)

15 30 0

Tutorials Projects/seminars

0 0

Faculty of Civil Engineering and Transport Faculty of Mechanical Engineering

**Prerequisites** 

The student has a basic knowledge of machine science, mechanics, the basics of machine construction and the laws of physics.

The student is able to integrate the obtained information, interpret it, draw conclusions, read diagrams and technical drawings.

The student is aware of the role of means of transport in human economic activity.

# POZNAN UNIVERSITY OF TECHNOLOGY

# EUROPEAN CREDIT TRANSFER AND ACCUMULATION SYSTEM (ECTS)

pl. M. Skłodowskiej-Curie 5, 60-965 Poznań

#### **Course objective**

Providing students with information on the construction and operation of car chassis systems.

#### **Course-related learning outcomes**

#### Knowledge

- 1. Has basic knowledge of the standardized rules of recording structures and engineering graphics.
- 2. Is aware of the latest trends in machine construction, i.e. automation and mechatronization, automation of machine design and construction processes, increased safety and comfort of operation, the use of modern construction materials.
- 3. Has extended basic knowledge necessary to understand specialist subjects and specialist knowledge about the construction, construction methods, manufacturing and operation of a selected group of working, transport, thermal and flow machines covered by the diploma path.

#### Skills

- 1. Can obtain information from literature, the Internet, databases and other sources. Can integrate the obtained information, interpret and draw conclusions from it, and create and justify opinions.
- 2. Can prepare a technical descriptive and drawing documentation of an engineering task.
- 3. Can draw a diagram and a simple machine element by hand in accordance with the rules of technical drawing.

# Social competences

- 1.Is ready to critically assess his knowledge and received content.
- 2. Is willing to think and act in an entrepreneurial manner.
- 3. Is ready to fulfill professional roles responsibly, including:
- observing the rules of professional ethics and requiring this from others,
- caring for the achievements and traditions of the profession.

## Methods for verifying learning outcomes and assessment criteria

Learning outcomes presented above are verified as follows:

The knowledge acquired during the course is verified on the final exam.

Mandatory individual reports on laboratory activities. Final credit of laboratory classes.

#### **Programme content**

- 1. Construction of a chassis, wheels and tires
- 2. Construction of the suspension system
- 3. Construction of steering systems

### POZNAN UNIVERSITY OF TECHNOLOGY

#### EUROPEAN CREDIT TRANSFER AND ACCUMULATION SYSTEM (ECTS)

pl. M. Skłodowskiej-Curie 5, 60-965 Poznań

- 4. Building a vehicle heating, ventilation and air conditioning system
- 5. Construction of pneumatic braking systems
- 6. Construction of hydraulic braking systems
- 7. Construction of manual gearboxes
- 8. Construction of clutches, shafts and driveshafts in the drive train
- 9. Construction of automatic gearboxes
- 10. Construction of automated gearboxes
- 11. Construction of 4x4 drive systems
- 12. Construction of main gears and differentials
- 13. Construction of assistive devices in steering systems
- 14. Construction of active and passive safety teams
- 15. Construction of car bodies for motor vehicles

### **Teaching methods**

Lecture with multimedia presentation.

Laboratory classes: independent execution of given by the teacher - practical exercises.
