Prerequisites

The student has basic knowledge of the humanities. He also has basic skills in the field of analysis and searching for information for the use of professional practice. The student recognizes the importance of the organization of own work as a component of effective functioning in the professional and social environment.

Course objective

The aim of the course is to acquire knowledge and skills in the field of economic law by participants. Students learn about the most important areas of economic law, basic institutions and legal regulations in the field of economic law. Students will acquire skills related to the selection of an appropriate legal form for business ventures.

Course-related learning outcomes

Knowledge

1. Student explains the concept and specific features of economic law.
2. The student lists and characterizes entities that can conduct business activity in Poland.
3. The student describes the rules of competition and consumer protection.

Skills

1. The student is able to choose the appropriate legal form of running a business depending on its nature.
2. The student is able to solve practical legal problems in the context of regulated economic activity.
3. The student is able to prepare basic economic contracts.

Social competences

1. The student is aware of the responsibility for decisions made regarding the subject matter of the subject.
2. The student is prepared to think and act in an entrepreneurial way.
3. The student is aware of the need to maintain ethical standards resulting from the social role of a technical university graduate.

Methods for verifying learning outcomes and assessment criteria

Learning outcomes presented above are verified as follows:

The credit scheme is as follows:

1. Preparation of a final thesis on economic law - 50 points are available.
2. Final test consisting of closed and open-ended questions - 50 points are possible.

Passing threshold: obtaining a minimum of 50 points, including a final thesis and a test.
