

COURSE DESCRIPTION CARD - SYLLABUS

Course name

Social Psychology

Course

Field of study

Electrical Engineering

Area of study (specialization)

Level of study

Second-cycle studies

Form of study

full-time

Year/Semester

1/2

Profile of study

general academic

Course offered in

English

Requirements

elective

Number of hours

Lecture

30

Laboratory classes

Other (e.g. online)

Tutorials

Projects/seminars

Number of credit points

2

Lecturers

Responsible for the course/lecturer:

dr Paulina Siemieniak

Responsible for the course/lecturer:

WIZ, ul. J. Rychlewskiego 2, p. 345

Prerequisites

A student starting this subject should know the basic concepts related to the mechanisms of social behavior, have the ability to perceive, associate and interpret basic phenomena occurring in social relations, be aware of the importance of psychological mechanisms in professional and private life.

Course objective

The aim is to develop the skills of: explaining and predicting social behavior, incl. shaping and leading teams; resisting group influence; persuasion and shaping attitudes; motivating; shaping the desired social relations.

Course-related learning outcomes

Knowledge

The student knows the mechanisms of social influence and creating relations between an individual and a group [K2_W20]

Skills

The student is able to obtain information from literature, databases and other sources, make their interpretation, evaluation, critical analysis and synthesis, as well as draw conclusions and formulate and exhaustively justify opinions [K2_U01]

Social competences

The student is aware of the need to develop professional achievements and observe the rules of professional ethics, fulfill social obligations, inspire and organize activities for the social environment [K2_K02]

Methods for verifying learning outcomes and assessment criteria

Learning outcomes presented above are verified as follows:

Formative assessment: Questions summarizing individual issues, giving the opportunity to assess the understanding of the issues by the student; written tasks checking the level of mastery of the current material. The points obtained in this way are added to the points from the final test. Summative assessment: Written test on the subject, test of closed questions.

Positive evaluation: obtaining more than 50% of the points.

Programme content

- 1. Psychology, social psychology - area of interest, genesis. Main trends in psychology: psychoanalysis, behaviorism, humanistic psychology.
- 2. Human nature - personality, temperament, emotional intelligence, brain sex, the theory of specialization of the cerebral hemispheres. Brain neuroplasticity. Mirror neurons and creating social bonds.
