## Prerequisites

The student has basic knowledge of the humanities. He also has basic skills in analysis and searching for information for the purposes of professional practice. The student recognizes the importance of organizing own work as a component of effective functioning in professional and social environment.

## **Course objective**

The aim of the course is to acquire knowledge and skills in the field of proper organization of tasks over time. As a result of its implementation, students will acquire the ability to create their own effective and efficient system of organizing tasks in the context of professional and non-professional work.

## **Course-related learning outcomes**

Knowledge

## POZNAN UNIVERSITY OF TECHNOLOGY

EUROPEAN CREDIT TRANSFER AND ACCUMULATION SYSTEM (ECTS) pl. M. Skłodowskiej-Curie 5, 60-965 Poznań

1. The student has basic knowledge necessary to understand social, economic, legal and other nontechnical conditions of engineering activity, including the principles of sustainable development within the conducted subject, especially in relation to management sciences.

2. The student has basic knowledge of management, including quality management and conducting business activity in the field of environmental engineering within the conducted subject.

3. The student knows the general principles of creating and developing forms of individual entrepreneurship, using the knowledge of environmental engineering within the conducted subject, especially in relation to time management issues.

## Skills

1. The student is able to obtain information from literature, databases and other appropriately selected sources, also in English or another foreign language considered to be the language of international communication in the field of environmental engineering; he or she can integrate information obtained, interpret it, as well as draw conclusions and formulate and justify opinions.

2. The student is able to interact and work in a group, assuming different roles in it, and is able to determine appropriate priorities for realization of tasks defined by him/her or others; especially in relation to time management issues.

3. The student has the ability to self-study; he/she understands the need for lifelong learning.

## Social competences

1. The student is aware of the responsibility for making decisions concerning the subject matter of the course.

2. The student is prepared to think and act in an entrepreneurial way.

3. The student is aware of the social role of a technical university graduate, is prepared to formulate and convey information and opinions on technical achievements and other aspects of engineering activity in a commonly understood way.

4. The student is aware of the need to maintain ethical standards resulting from the social role of a technical university graduate.

## Methods for verifying learning outcomes and assessment criteria

Learning outcomes presented above are verified as follows: Conditions for passing this course are as follows:

1) preparation of final essay concerning the marketing strategy of the company - 50 points are possible to obtain.

2) test consisting of closed and open questions - 50 points are possible to obtain.

The passing threshold: obtaining at least 50 points including the final essay and the test.

## POZNAN UNIVERSITY OF TECHNOLOGY

EUROPEAN CREDIT TRANSFER AND ACCUMULATION SYSTEM (ECTS) pl. M. Skłodowskiej-Curie 5, 60-965 Poznań

## **Programme content**

Characteristics of modern determinants of time management. Elements of praxeology in the organization of tasks. Contemporary concepts and methods of time management. Methods of planning and scheduling activities. Methodology of network thinking in project planning. Selected problems of forecasting. Management of objectives. Kaizen philosophy.

## **Teaching methods**

Lecture: informative lecture - multimedia presentation illustrated with examples given on the board.

#### **Bibliography**

Basic
