

COURSE DESCRIPTION CARD - SYLLABUS

Course name

BHP - Workplace Health and Safety (WHS)

	Course
Field of study	Year/Semester
Chemical and Process Engineering	1/1
Area of study (specialization)	Profile of study
-	general academic
Level of study	Course offered in
First-cycle studies	polish
Form of study	Requirements
full-time	compulsory

Number		
of hours		
Lecture	Laboratory classes	Other (e.g. online)
4	0	0
Tutorials	Projects/seminars	
0	0	
Number of credit points		
0		

Lecturers

Responsible for the course/lecturer:

Justyna Werner, PhD

mail: justyna.werner@put.poznan.pl

Faculty of Chemical Technology

Berdychowo 4, 60-965 Poznań

phone 61 665 28 83

Responsible for the course/lecturer:

Prerequisites

Student should know the theoretical basis of occupational safety and health. Student should be able to pursue self-directed learning. Student should understand the need for further self-learning of others (students).

Course objective

To acquaint students with the basic principles of work in a chemical laboratory, practical ability of conducting an experiment in a safe way and working in a lab and getting acquainted with basis of substance management and prevention of chemical risks.

Course-related learning outcomes

Knowledge

1. Knows the basic rules of safe and hygienic work in the process of educating a chemist (rules of safe work in a chemical laboratory, working with chemical substances). [K_W18, K_W18]
2. Knows the basic principles of providing first aid and the rules of conduct in case of fire [K_W18]
3. Is aware of the dangers that may occur during practical classes in chemical laboratories, can correctly identify the dangers [K_W18]

Skills

1. Has the ability to assess threats, prevent them [K_U1, K_U11]
2. Has the ability to act and behave appropriately in the event of an emergency [K_U11, K_U12]
3. Has the skills necessary to work in the laboratory in terms of health and safety [K_U12]
4. Has the ability to use safety data sheets of hazardous substances [K_U12]
5. Correctly recognizes pictograms, which can assign the appropriate meaning [K_U12]
6. Can provide first aid [K_U12]

Social competences

1. Has awareness and understanding of social aspects of the practical application of the acquired knowledge and the related responsibility [K_K3]
2. Is aware of the impact and importance of complying with the principles of safe and hygienic work on their own and others' safety [K_K6]

Methods for verifying learning outcomes and assessment criteria

Learning outcomes presented above are verified as follows:

Completion of the course based on the test

Programme content

The cycle of the OSH includes:

1. Basic principles of health and safety at work in laboratory
2. Related to exposure to chemical substances - identification and classification of hazards, familiarization with the construction and information contained in the Safety Data Sheets (in particular phrases of H and safety risk P),
3. Discussing the correct labeling of the packaging of a dangerous substance and dangerous preparation
4. Presentation of ways to reduce hazards, procedures for dealing with hazards in a student lab (spills, oral or respiratory intoxication, chemical burns, fire, etc.); Indoor exposure to radon and health risk

associated with radon exposure;

5. Presentation of laboratory equipment with individual and collective protection measures
6. Discussion of proceedings in the event of an accident, breakdown or fire (first premedical aid, escape routes).

Teaching methods

lecture: multimedia presentation and discussion of examples

Bibliography

Basic

1. R. Kowal, Bezpieczeństwo i higiena pracy przy stosowaniu substancji i preparatów chemicznych, Ośrodek Szkolenia PIP, Wrocław 2006.
2. P. Kowalski, Laboratorium chemii organicznej, techniki pracy i przepisy bhp, WNT, Warszawa 2008.
3. M. Wasilewski, W. Dawydow, Bezpieczeństwo w pracowni chemicznej, WNT, Warszawa 2009.
4. G. Gałuszka, Pierwsza pomoc w nagłych wypadkach, Tarbonus, Kraków-Tarnobrzeg 2009.
5. Aktualne akty prawne obejmujące zagadnienia związane z bhp i czynnikami chemicznymi w miejscu pracy
6. J.A. Young Ed., Safety in Academic Laboratories, Am, Chem. Soc., Washington DC, 2003

Additional

Miesięczniki „Bezpieczeństwo pracy”, „Atest”

Breakdown of average student's workload

	Hours	ECTS
Total workload	4	0,0
Classes requiring direct contact with the teacher	4	0,0
Student's own work (literature studies, preparation for test) ¹	0	0,0

¹ delete or add other activities as appropriate
