Methods for verifying learning outcomes and assessment criteria

Learning outcomes presented above are verified as follows:

1. Written exam (on a satisfactory grade must get more than 50% correct answers)
2. Case studies and discussions based on scientific literature at lectures, which give lecture participants the opportunity to obtain additional points added to the points obtained from the written test in order to give the final grade of the lecture.
4. Discussions summarizing individual lectures, giving the opportunity to assess the student's understanding of the issues.

Programme content

1. Basic economic concepts: Market, demand, supply.
2. The enterprise and its functions in the economy.
3. Assessment of the efficiency of the national economy
4. The role of money and monetary policy
5. The state budget
6. Inflation and unemployment
7. Internationalization and globalization of the economy and enterprises
8. Business plan - as a projection of the company's goals and ways to achieve them.
9. Management of fixed and current assets in the enterprise
10. Human capital management
11. Basic instruments for financing enterprises

12. Financial statements and financial indicators

13. Internationalization of enterprises

14. Forms of enterprise cooperation

Teaching methods

1. Lecture: traditional lecture using multimedia presentations, problem lecture - discussion with students on solving a given problem, conversational lecture - drawing listeners into the discussion, controlling the course of the lecture depending on the answers given.

2. Case studies (possibility to use elements of business simulations).
