Rights and obligations

Course

Field of study

Year/Semester

Transport

1/1

Area of study (specialization)

Profile of study

--

general academic

Level of study

Course offered in

First-cycle studies

Polish

Form of study

Requirements

part-time

compulsory

Number of hours

Lecture

Laboratory classes

Other (e.g. online)

4

Tutorials

Projects/seminars

Number of credit points

Lecturers

Responsible for the course/lecturer:

dr inż. Marlena Kucz

Responsible for the course/lecturer:

Head of Student Council

email: marlena.kucz@put.poznan.pl

tel. 616652864

WILIT

ul. Piotrowo 5 60-965 Poznań

Prerequisites

The student knows the basic concepts related to the essence of interpersonal communication, knows the interpersonal rules, knows the basics of savoir vivre. General knowledge at the high school level in the humanities, natural and social subjects.

Course objective

The main purpose of the training is to introduce new students to university life, learn about the rules of the university, present the Student Council as the first line of support, provide them with information from "older colleagues" that will always be better assimilated than those written on the website or briefly provided at an organizational meeting with 1st year students.

Course-related learning outcomes

Knowledge

The student has knowledge of ethical codes regarding transport engineering, is aware of the dangers related to environmental protection and understands the specificity of mission-critical systems

Skills

The student is able to organize, cooperate and work in a group, assuming various roles in it, and is able to properly define priorities for the implementation of a task set by himself or others

The student is able to plan and implement the process of own life long learning and knows the possibilities of further education (second and third degree studies, postgraduate studies, courses and exams conducted by universities, companies and professional organizations)

Social competences

The student is aware of the social role of a technical university graduate, in particular, he/she understands the need to formulate and transfer to the society, in an appropriate style, information and opinions on engineering activities, technological achievements, as well as the achievements and traditions of the transport engineer profession

Methods for verifying learning outcomes and assessment criteria

Learning outcomes presented above are verified as follows:

Obligatory attendance. Confirmation with signature on the attendance list.

Programme content

Student status, study regulations, organization of studies, university work, ways of writing emails, absences, excuse for absences, scholarships, help from colleagues etc

Teaching methods

Presentation, discussion with colleagues

Bibliography

Basic

1. Study regulations
3. Rector ordinances

Additional

Breakdown of average student's workload

	Hours	ECTS
Total workload	8	0,0
Classes requiring direct contact with the teacher	4	0,0
Student's own work (literature studies, preparation for laboratory classes/tutorials, preparation for tests/exam, project preparation) ¹	4	0,0

¹ delete or add other activities as appropriate
