

COURSE DESCRIPTION CARD - SYLLABUS

Course name

Intellectual Property

Course

Field of study

Management and Production Engineering

Area of study (specialization)

Level of study

First-cycle studies

Form of study

part-time

Year/Semester

3/6

Profile of study

general academic

Course offered in

Polish

Requirements

compulsory

Number of hours

Lecture

12

Laboratory classes

Other (e.g. online)

Tutorials

Projects/seminars

Number of credit points

1

Lecturers

Responsible for the course/lecturer:

PhD Jakub Pawlak

jakub.pawlak@put.poznan.pl

ph. +48 61 665 33 89

Faculty of Management Engineering

J. Rychlewskiego 2, 60-965 Poznań

Responsible for the course/lecturer:

Prerequisites

The student should have a basic knowledge of economics and management as well as law.

The student should have the skills to perceive and solve basic problems related to intellectual property protection.

The student should understand the need and present attitudes conducive to and encouraging creative thinking.

Course objective

1. To provide students with basic knowledge regarding intellectual property protection and management to a certain extent

2. Developing students' skills to solve problems related to intellectual property

3. Developing teamwork skills in students

Course-related learning outcomes

Knowledge

1. knows and understands the basic concepts and principles of industrial property protection and copyright; can use patent information resources;

2. has basic knowledge necessary to understand the non-technical determinants of engineering activities and the electronics and telecommunication process in industry and household

Skills

is able to identify non-technical aspects, including environmental, economic and legal ones when formulating and solving tasks involving the design of electronical and telecommunication systems;

Social competences

1. is aware of the importance and understands the non-technical aspects and effects of engineering activities, including its impact on the environment and the associated responsibility for decisions;

2. understands the need and knows the possibilities of continuous training - raising professional, personal and social competences, is able to inspire and organize the learning process of others;

Methods for verifying learning outcomes and assessment criteria

Learning outcomes presented above are verified as follows:

Formative assessment:

Final test

The exam takes the form of a single or multiple choice test

Assessment criteria: 50.1% - 70% = 3; 70.1% - 90% = 4; over 90% = 5

Programme content

Patents, utility model, industrial design, copyright, law on the Internet

Teaching methods

Traditional lecture, seminar lecture (multimedia presentation, presentation illustrated with examples on the board, case study with discussion).

Bibliography

Basic

1. T.Szymanek Prawo własności przemysłowej. EWSPA Warszawa 2008

2. J.Barta, R.Markiewicz, Prawo autorskie Wydawnictwo Oficyna Warszawa 2008
