

COURSE DESCRIPTION CARD - SYLLABUS

Course name

English [S2Bud1>JA1]

Course

Field of study

Civil Engineering

Year/Semester

1/1

Area of study (specialization)

Structural Engineering

Profile of study

general academic

Level of study

second-cycle

Course offered in

polish

Form of study

full-time

Requirements

elective

Number of hours

Lecture

0

Laboratory classes

0

Other (e.g. online)

0

Tutorials

15

Projects/seminars

0

Number of credit points

1,00

Coordinators

mgr Joanna Liskowska-Sikora

joanna.liskowska@put.poznan.pl

Lecturers

mgr Małgorzata Bączyńska

malgorzata.baczynska@put.poznan.pl

mgr Joanna Liskowska-Sikora

joanna.liskowska@put.poznan.pl

Prerequisites

The already acquired language competence compatible with level B2 (CEFR). The ability to use general and field specific vocabulary, and grammatical structures required on the first level of studies. The ability to work individually and in a group; the ability to use various sources of information and reference works.

Course objective

1. Advancing students' language competence towards the level at least B2+ (CEFR). 2. Development of the ability to use field specific language effectively in both receptive and productive language skills. 3. Improving the ability to understand field specific texts. 4. Improving the ability to function effectively on an international market.

Course-related learning outcomes

Knowledge:

As a result of the course, the student ought to acquire field specific vocabulary related to the following

issues:

1. Public and state building - stadiums, underground/railway, Burj al Arab
 2. Skyscrapers - Empire State Building
 3. Presentations – MSc paper
 4. Writing emails and summaries
- and to be able to define and explain associated terms, phenomena and processes.

Skills:

As a result of the course, the student is able to:

1. give a talk on field specific topic (in English), and discuss field specific issues using an appropriate linguistic and grammatical repertoire
2. understand and analyze international, field specific literature.

Social competences:

As a result of the course, the student is able to communicate effectively in a field specific/professional area, and to give a successful presentation in English. The student is able to recognize and understand cultural differences in a professional and private conversation, and in a different cultural environment.

Methods for verifying learning outcomes and assessment criteria

Learning outcomes presented above are verified as follows:

Formative assessment: tests during academic year (written and oral), presentations, project.

Summative assessment: credit. To obtain a positive assessment the student is obliged to pass the material covered by the program with at least 50%.

Programme content

Expanding general and technical vocabulary based on specialized texts; developing skills in understanding professional literature and expressing on topics including issues related to general language and civil engineering: public and state building - stadiums, underground/railway, Burj al Arab, skyscrapers - Empire State Building.

Teaching methods

auditorium classes, guided text method; The teaching methods are based on the improvement of four basic language competences (listening, speaking, reading, writing) being the medium to expand the substantive knowledge in the field of technical topics.

Bibliography

Basic

Eliza Romaniuk, Joanna Wrana. 2007. „Modern Wonders of Civil Engineering”.

Additional

Shirley Taylor. 2004. Model Business Letters, Emails, and Other Business Documents.

Breakdown of average student's workload

	Hours	ECTS
Total workload	30	1,00
Classes requiring direct contact with the teacher	15	0,50
Student's own work (literature studies, preparation for laboratory classes/ tutorials, preparation for tests/exam, project preparation)	15	0,50
