4. the student is aware of the interdisciplinary knowledge and skills needed to solve the complex problems of the organization and the need to create interdisciplinary teams

Methods for verifying learning outcomes and assessment criteria

Learning outcomes presented above are verified as follows:

Learning outcomes presented above are verified as follows:

1. Written exam (on a satisfactory grade must get more than 50% correct answers)
2. Case studies and discussions based on scientific literature at lectures, which give lecture participants the opportunity to obtain additional points added to the points obtained from the written test in order to give the final grade of the lecture.
4. Discussions summarizing individual lectures, giving the opportunity to assess the student's understanding of the issues.

Programme content

1. The essence of small and medium-sized enterprises (Definitions of the SME sector, Structure of SMEs in Poland - the most common organizational and legal forms, socio-economic role of the entrepreneur)
2. Barriers to the development of entrepreneurship (Typology of barriers, Relevance of individual barriers to the development of entrepreneurship, Prospects for the nuisance of individual barriers)
3. Success factors (Theoretical approaches to business survival and development, Key success factors)
4. Business planning (Business start-up motives, Functions and recipients of the business plan, Business plan structure, Mistakes made during the development of the business plan)
5. Recording of company activities (registration procedure, essential choices in the registration process and their consequences, registration costs, basic tax aspects of company registration)
- 6 Methods of financial assessment of the company
7. Internationalisation and globalisation of enterprises

Teaching methods

1. Lecture: traditional lecture using multimedia presentations, problem lecture - discussion with students on solving a given problem, conversational lecture - drawing listeners into the discussion, controlling the course of the lecture depending on the answers given.
2. Case studies.
