maciej.szafranski@put.poznan.pl

Lecturers

Prerequisites

Knowledge and skills acquired during the following courses: marketing, financial accounting.

Course objective

Students acquire knowledge and basic skills of marketing activities in service and trade companies as well as in relation to service processes in other enterprises.

Course-related learning outcomes

Knowledge:

The student identifies and describes the characteristic features of commercial and service enterprises as market entities, including their functions and classifications [P6S_WG_01].

The student classifies and explains different forms of services and their features in the context of marketing strategies [P6S_WG_03].

The student discusses ethical principles and their impact on marketing activities in trade and services [P6S_WK_01].

Skills:

The student conducts an analysis of marketing strategies in service companies, including market segmentation and service positioning [P6S_UW_04].

The student interprets data from marketing research and applies it in diagnosing the service industry [P6S_UW_05].

The student analyzes and interprets Incoterms rules in the context of international marketing [P6S_UW_06].

Social competences:

The student develops and implements marketing plans and strategies, considering legal, economic, and organizational aspects [P6S_KO_01, P6S_KO_03].

The student analyzes and evaluates the impact of cultural diversity on marketing activities in the international arena, considering professional ethics [P6S_KR_02].

The student recognizes and assesses cause-and-effect relationships in achieving marketing goals, both at the local and international levels [P6S_KK_02].

Methods for verifying learning outcomes and assessment criteria

Learning outcomes presented above are verified as follows:

Lecture: formative assessment: during the lectures short discussions are conducted to check the effectiveness of the learning process to allow professors to adapt the teaching pace to students' actual capabilities and allow the students to see the scope of knowledge they were able to acquire during the class; the colloquium between the second and third lecture containing minimum 5 question. Minimum score to receive lecture credit is 51%. Summary assessment: the level of obtaining relevant knowledge is summarized in the colloquium at the last lecture, i.e., the cross-sectional test which contains 15 questions. Minimum score to receive lecture credit is 51%.

Tutorials: formative assessment: skills acquired during seminars are verified both based on partial tasks carried out by students. The formative mark is based on the student's presentation prepared in teams and presented between fourth and fifth lecture and based on the colloquium schedules in the second part of the semester. Minimum score to receive formative assessment credit is 51%. Summary assessment: the final mark it is the average of two partial marks obtained by students during the semester; each of the partial mark must be higher than 50% of points.
