

### POZNAN UNIVERSITY OF TECHNOLOGY

**EUROPEAN CREDIT TRANSFER AND ACCUMULATION SYSTEM (ECTS)** 

### **COURSE DESCRIPTION CARD - SYLLABUS**

Course name

Diploma Seminar [S2MiBP1-PSz>SD]

Course

Field of study Year/Semester

Mechanical and Automotive Engineering 2/3

Area of study (specialization) Profile of study

Railway Vehicles general academic

Level of study Course offered in

second-cycle polish

Form of study Requirements full-time compulsory

**Number of hours** 

Lecture Laboratory classes Other (e.g. online)

0 0

Tutorials Projects/seminars

0 15

Number of credit points

2,00

Coordinators Lecturers

prof. dr hab. inż. Franciszek Tomaszewski franciszek.tomaszewski@put.poznan.pl

# **Prerequisites**

KNOWLEDGE: Knowledge of issues related to the subject of the master"s thesis SKILLS: Can use the scientific method in solving problems, carrying out experiments and making conclusions SOCIAL COMPETENCES: Knows the limitations of own knowledge and skills; is able to precisely formulate questions, understands the need for further education

#### Course objective

Broadening the knowledge and skills on the organization, conducting scientific and technical works and presenting the results of these works.

### Course-related learning outcomes

### Knowledge:

Has extended knowledge of material strength in the field of nonlinear models, fracture and fatigue strength, calculations of statically indeterminate structures, structure stability.

Has a general knowledge of the types of research and methods of testing working machines with the use of modern measurement techniques and data acquisition.

He knows the main development trends in the field of mechanical engineering.

#### Skills:

He can develop a technical description, offer and design documentation for a complex machine from a selected group of machines.

Can plan and carry out experimental research of specific processes taking place in machines and routine tests of a working machine or a vehicle from a selected group of machines.

Can communicate on specialist topics with a diverse audience.

#### Social competences:

He is ready to critically assess his knowledge and received content.

Is ready to recognize the importance of knowledge in solving cognitive and practical problems and to consult experts in case of difficulties in solving the problem on its own.

It is ready to fulfill social obligations, inspire and organize activities for the benefit of the social environment.

### Methods for verifying learning outcomes and assessment criteria

Learning outcomes presented above are verified as follows:

Learning outcomes presented above are verified as follows: credit

# Programme content

General part: types of qualification works, including diploma theses, rules for their implementation, requirements for master"s theses. Formulating a technical problem and thesis, study of literature, methodological part of the thesis, presentation of research results, development of observations i requests. Principles of work editing, editing support, development of graphic elements, preparation of the work for printing and duplication.

Specialist part: reporting of theses carried out by the authors

# **Teaching methods**

Lecture with multimedia presentation.

## **Bibliography**

## Breakdown of average student's workload

	Hours	ECTS
Total workload	50	2,00
Classes requiring direct contact with the teacher	15	1,00
Student's own work (literature studies, preparation for laboratory classes/ tutorials, preparation for tests/exam, project preparation)	35	1,00
