POZNAN UNIVERSITY OF TECHNOLOGY

EUROPEAN CREDIT TRANSFER AND ACCUMULATION SYSTEM (ECTS)

COURSE DESCRIPTION CARD - SYLLABUS

Course name

Functional Exerciess in Physical Adaptation [C_CS>ZK30]

mgr Agata Ostrowska agata.ostrowska@put.poznan.pl		mgr Arkadiusz Jarentowski arkadiusz.jarentowski@put.poznan.pl	
Coordinators		Lecturers	
Number of credit points 0,00			
Tutorials 30	Projects/seminars 0		
Lecture 0	Laboratory classes 0	S	Other (e.g. online) 0
Number of hours			
Form of study full-time		Requirements elective	
Level of study first-cycle		Course offered in polish	1
Area of study (specialization) Air Transport Safety Unmanned Aerial Vehicles Technical Electrochemistry Composites and Nanomaterials Air Traffic Organisation Aircraft Piloting Aircraft Engines and Airframes Onboard Systems and Aircraft Pro Organic Technology Polymer Technology Heating, Air Conditioning and Air F Water Supply, Water and Soil Prot null	pulsion Protection	Profile of study general academic	C
Artificial Intelligence		1/2	
Field of study		Year/Semester	

Prerequisites

Decision on the degree of disability Long-term sick leave

Course objective

Compensatory physical education classes are held for students who, for health reasons, cannot participate in sports, have a medical exemption or a disability certificate. Registration for compensatory classes takes place during organizational meetings in the first week of the semester .Students choose one term per week from the three offered and receive credit based on attendance and involvement in the classes. Exercises are prepared and conducted by a physical education teacher and physiotherapist at the same time. According to their condition, students perform exercises according to an individually prepared program. As students return to full fitness, they can join programmed physical education classes . These classes, in addition to assisting and preparing them to function fully, also have a certain integrative aspect, as they are classes in which students from all departments participate at the same time.

Course-related learning outcomes

The ability to assess one's dysfunction The ability to cope with dysfunction Counteracting its effects Improving motor skills Knowledge and awareness of how one's body functions The importance of systematic physical activity to maintain fitness Ability to work as part of a team-assurance, understanding and empathy

Methods for verifying learning outcomes and assessment criteria

Learning outcomes presented above are verified as follows:

Credit based on attendance and engagement in class

Programme content

Dependent on a particular dysfunction, medical condition or temporary inability to exercise

Teaching methods

Analytical methods Division of motion into phases

Bibliography

none

Breakdown of average student's workload

	Hours	ECTS
Total workload	30	0,00
Classes requiring direct contact with the teacher	30	0,00
Student's own work (literature studies, preparation for laboratory classes/ tutorials, preparation for tests/exam, project preparation)	0	0,00
