POZNAN UNIVERSITY OF TECHNOLOGY

EUROPEAN CREDIT TRANSFER AND ACCUMULATION SYSTEM (ECTS) pl. M. Skłodowskiej-Curie 5, 60-965 Poznań

COURSE DESCRIPTION CARD - SYLLABUS

Course name			
Diploma Seminar			
Course			
Field of study Management and Production Engineering		Year/Semester	
		4/8	
Area of study (specialization)		Profile of study	
		general academic	
Level of study First-cycle studies		Course offered in Polish	
			Form of study
part-time		elective	
Number of hours			
Lecture	Laboratory classes	Other (e.g. online)	
Tutorials	Projects/seminars		
	16		
Number of credit point	S		
3			
Lecturers			
Responsible for the course/lecturer: Responsible for the course/lecturer:		sible for the course/lecturer:	

Prerequisites

basic for programs and subjects provided for students of management and production Engineering in the first degree, logical thinking, use of various sources of information (library, Internet) and processing of acquired messages, use of programs for editing text and graphics, understanding the need for learning, acquiring new knowledge, ordering information obtained, verifying own conclusions (self presentation)

Course objective

Selection of promoters, generate topics of thesis, specify objectives and scope of work

Course-related learning outcomes

Knowledge

Student knows the rules related to the editing of the diploma thesis (structure, editorial requirements, sources of knowledge, bibliographic principles used in developing a review of the literature)

Is able to determine the subject and purpose of the thesis

Can formulate the scope of the topic (issues then developed in the thesis)

POZNAN UNIVERSITY OF TECHNOLOGY

EUROPEAN CREDIT TRANSFER AND ACCUMULATION SYSTEM (ECTS) pl. M. Skłodowskiej-Curie 5, 60-965 Poznań

He knows the substantive scope of the diploma exam

Skills

Student is able to analyze the literature on the subject

Is able to present the scope of the topic, main assumptions and purpose of the work and present its important fragments

Can verbalize acquired knowledge and present it in various ways (multimedia presentation, paper, speech, discussion)

Can formulate conclusions from the work carried out

Social competences Student can work in a group

He will act in accordance with the principles of ethics

He can express his opinion and justify it

Methods for verifying learning outcomes and assessment criteria

Learning outcomes presented above are verified as follows:

Formative rating: assessment for presenting given seminar topics

Summative assessment: fulfillment of all the conditions for passing the subject presented at the beginning of the class

Programme content

Characteristics of engineering diploma theses (construction, technological, production organization, research, review, theoretical); The structure of the diploma thesis; Editorial requirements; Characterizing the substantive area, formulating the purpose of the work and its scope; Formal rules for preparing literature analysis and student's own research; Issues common to groups of students on examples, preparation of a paper in groups, discussion; Choosing a work promoter, determining the topic of work in close contact with the promoter; Presentation of the outline of the selected topic of the work and its important fragments.

Teaching methods

Multimedia presentations with commentary, panel discussion

Bibliography

Basic

Individually selected for a topic

Diploma recommendations developed by the lecturer, a sheet of the most frequently recurring mistakes while editing the thesis developed by the lecturer
