

COURSE DESCRIPTION CARD - SYLLABUS

Course name

English language [S2Arch1E>JANG]

Course

Field of study
Architecture

Year/Semester
1/1

Area of study (specialization)
–

Profile of study
general academic

Level of study
second-cycle

Course offered in
English

Form of study
full-time

Requirements
elective

Number of hours

Lecture
0

Laboratory classes
0

Other (e.g. online)
0

Tutorials
30

Projects/seminars
0

Number of credit points

2,00

Coordinators

Lecturers

mgr Beata Osuch

Prerequisites

The already acquired language competence compatible with level B2 (CEFR). The ability to use general and field specific vocabulary, and grammatical structures required on the first level of studies. The ability to work individually and in a group; the ability to use various sources of information and reference works.

Course objective

1. Advancing students' language competence towards the level at least B2+ (CEFR). 2. Development of the ability to use field specific language effectively in both receptive and productive language skills. 3. Improving the ability to understand field specific texts. 4. Improving the ability to function effectively on an international market.

Course-related learning outcomes

none

Methods for verifying learning outcomes and assessment criteria

Learning outcomes presented above are verified as follows:

- Formative assessment: vocabulary tests, presentations
- Summative assessment: credit

Programme content

Expanding general and technical vocabulary based on specialized texts; developing skills in understanding professional literature and expressing opinions on various topics including issues related to architecture of the 21st century, sustainable architecture, sustainable urban planning. Preparation for writing an abstract for a thesis.

Course topics

1. The Pritzker Prize laureates.
2. Sustainable architecture.
3. Bio-solar house in Thailand.
4. Picture Window House by Shigeru Ban.
5. City as an organism.
6. Writing an abstract.

Teaching methods

Auditorium classes, guided text method; The teaching methods are based on the improvement of four basic language competences (listening, speaking, reading, writing) being the medium to expand the substantive knowledge in the field of technical topics.
