

COURSE DESCRIPTION CARD - SYLLABUS

Course name

Law elements [N11BIJ1>EIPr]

Course

Field of study

Safety and Quality Engineering

Year/Semester

1/2

Area of study (specialization)

–

Profile of study

general academic

Level of study

first-cycle

Course offered in

Polish

Form of study

part-time

Requirements

compulsory

Number of hours

Lecture

9

Laboratory classes

0

Other (e.g. online)

0

Tutorials

9

Projects/seminars

0

Number of credit points

2,00

Coordinators

dr Jakub Drobnik

jakub.drobnik@put.poznan.pl

dr Paulina Kubera

Lecturers

Prerequisites

The student should have basic knowledge on the state system at the level of secondary school graduation, the ability to think logically and practical skills in the search for basic literature available in print and in the Internet, as well as understand the importance of legal and institutional regulatory mechanisms in social life and the economy.

Course objective

Providing students with general information on the legal system and branches of law, with particular emphasis on concluding civil law contracts.

Course-related learning outcomes

Knowledge:

1. Explains basic legal concepts, including the legal system, branches of law, structure and types of legal norms, and understanding the applicability of legal norms over time and space [K1_W05]

2. Understands the principles of operation of national law sources and the relationship between national law and European Union law [K1_W12]
3. Knows the organization of the judiciary in Poland and basic issues in administrative, criminal, and intellectual property law [K1_W12]

Skills:

1. Analyzes the legal status of entities, understands the differences between natural persons, legal persons, and defective legal persons [K1_U01]
2. Identifies and analyzes the types and forms of legal actions, including the issues of contract formation and defects in declarations of intent [K1_U09]
3. Identifies and analyzes changes in requirements, standards, regulations, and technological progress, adjusting their legal knowledge accordingly [K1_U12]

Social competences:

1. Develops the ability to debate and present legal problems, taking into account aspects of security and information protection [K1_K01]
2. Promotes professionalism and ethical conduct in the context of complying with the law, respecting diversity, and building a culture of safety and quality [K1_K06]

Methods for verifying learning outcomes and assessment criteria

Learning outcomes presented above are verified as follows:

Formative assessment: ongoing activity during classes and participation in the discussion; solving legal problems during the classes that offers the opportunity to assess the student's understanding of the issues raised.

Summative assessment: two written tests conducted separately for tutorials and lectures, consisting of multiple-choice questions and open questions; passing threshold: approx. 55% of points.
