Lecturers

Prerequisites

The student knows the basic concepts of corporate finance and management. He has a general knowledge of entrepreneurship and the functioning of companies in the market economy. The student has the ability to perceive, associate and interpret the phenomena occurring in enterprises and the economy. The student understands and is prepared to bear social responsibility for decisions in the area of small business management.

Course objective

To familiarize students with the specifics of creating and managing a small and medium enterprise. Paying attention to the problem of growth and financing of enterprises in this category

Course-related learning outcomes

Knowledge:

The student defines legal norms and their impact on the functioning of small and medium-sized enterprises (SMEs) [P7S_WG_01].

The student describes methods of modeling information and decision-making processes in the context of strategic management of SMEs [P7S_WG_02].

The student characterizes the determinants of the organizational structures of SMEs and identifies the structuring mechanisms affecting the development and efficiency of these enterprises. [P7S_WG_05]
The student lists and analyzes the connections of SMEs with the global market and the relationships between organizational units in the international context [P7S_WG_06].

Skills:

The student analyzes and evaluates challenges and barriers to SME development, applying critical analysis to formulate development strategies [P7S_UW_03].

The student designs business plans for SMEs, using knowledge of the structure and functions of a business plan [P7S_UW_04].

The student analyzes and interprets financial phenomena for SMEs, including evaluating the favorability of investments and financing opportunities [P7S_UW_06].

The student applies knowledge of clusters to the planning and management of business ventures in SMEs [P7S_UW_08].

Social competences:

The student develops the interdisciplinary skills necessary to solve SME problems and challenges, preparing to work effectively in project teams [P7S_KK_01].

The student identifies and prioritizes key tasks in MSP management, analyzing cause-and-effect relationships in achieving business objectives [P7S_KK_02].

The student effectively makes substantive contributions to the design and implementation of business projects in SMEs, taking into account the specifics of the sector [P7S_KO_01].

Methods for verifying learning outcomes and assessment criteria

Learning outcomes presented above are verified as follows:

LECTURE:

- formative assessment: discussions summarizing individual lectures, giving the student the opportunity to assess the understanding of the problem
- final grade: written test of the subject or summary grade based on partial grades

EXERCISES:

- formative assessment: activity during classes
- final grade: written / online assessment or summative assessment based on partial grades / project assessment
