# POZNAN UNIVERSITY OF TECHNOLOGY

# EUROPEAN CREDIT TRANSFER AND ACCUMULATION SYSTEM (ECTS)

# **COURSE DESCRIPTION CARD - SYLLABUS**

Course name Climbing [C_CS>Wsp15]			
<b>Course</b> Field of study Engineering Management		Year/Semester 1/2	
Area of study (specialization) Managing Enterprise of the Future		Profile of study general academi	c
Level of study second-cycle		Course offered in Polish	1
Form of study full-time		Requirements elective	
Number of hours			
Lecture 0	Laboratory class 0	es	Other (e.g. online) 0
Tutorials 15	Projects/seminar 0	S	
Number of credit points 0,00			
Coordinators mgr Robert Witkowski robert.witkowski@put.poznan.pl mgr Agata Ostrowska agata.ostrowska@put.poznan.pl		Lecturers	

## **Prerequisites**

The student has no health contraindications to active participation in the class Ability to move at height Equipped with appropriate climbing shoes and sports attire

## **Course objective**

Basics of climbing without belay (bulldering) - insertion, three support points, traverses, frog position, use of twists, moving on a cross, reset Moving on straight walls, slants, overhangs and in the roof Degrees of difficulty - markings of ballads and climbing routes. The use of colored holds. Learning how to belay: safety conditions, putting on a harness and clipping in a rope, basic knots used in climbing (e.g. figure eight or double figure eight), securing the climber and the belayer, basic commands - "I can go", "give a block" or "give a pit", choosing a rope, falling off the wall, going downhill Climbing "on the rod" Static and dynamic ropes - unfolding, hanging and retracting after completing exercises.... Exercises - techniques of the climber's use (frog position, use of twists, moving on the cross, limbering and stretching exercises, formation of climber's strength and endurance, games in teaching climbing (such as flood or dokładanka) Climbing competitions - scoring Climbing "with a pit" - safety conditions, teaching how to make a pin, spotting, issuing and selecting a rope, belaying

### **Course-related learning outcomes**

Knowledge of occupational health and safety regulations when using a climbing wall Belaying skills Knowledge of basic and advanced climbing techniques Knowledge of flexibility exercises The ability to develop a climber's strength and endurance Fun in teaching climbing

## Methods for verifying learning outcomes and assessment criteria

#### Learning outcomes presented above are verified as follows:

Completing the course is achieved through active and regular participation in classes.

One absence is allowed without the obligation to make up or excuse it for 15 hours per semester. The student is obliged to make up for remaining absences and short-term sick leave in consultation with his/ her teacher.

It is possible to complete two classes a week.

You can participate in physical education classes no more than once a day.

Classes must be made up on a day other than the scheduled classes.

## Programme content

Learning belaying Exercises - techniques of the climber Flexibility and stretching exercises Shaping the climber's strength and endurance Games in teaching climbing

# **Course topics**

Health and safety regulations regarding activities on the climbing wall Basics of climbing without belays (bouldering):

- -insertion
- -three support points
- -traverses
- -frog position-
- -use of twisted pairs
- -moving on the cross
- reset

Moving along straight walls, sloping walls, overhangs and in the roof

Difficulty levels - markings of canopies and climbing routes

The use of colored grips.

Learning how to belay: safety conditions, putting on a harness and attaching a rope, basic knots securing the climber and the belay person

basic commands - "I can go", "give me a block", or "let me go down", choosing a rope, falling off the wall, sliding down

Climbing the Fishing Rod

Static and dynamic ropes unfolding, hanging and rolling up after completing the exercises... shaping the climber's strength and endurance fun in teaching climbing Climbing competition – scoring Climbing "downhill" - safety conditions spotting, issuing and selecting the rope, belaying

## **Teaching methods**

- verbal description

-show

- practical exercises

## Bibliography

"Climbing Training" by Eric J. Hörst "Training planning in sport climbing" by David Macià Paredes

## Breakdown of average student's workload

	Hours	ECTS
Total workload	15	0,00
Classes requiring direct contact with the teacher	15	0,00
Student's own work (literature studies, preparation for laboratory classes/ tutorials, preparation for tests/exam, project preparation)	0	0,00
