

COURSE DESCRIPTION CARD - SYLLABUS

Course name

Basics of Management [S1IZarz1E>PZ]

Course

Field of study

Engineering Management

Year/Semester

1/1

Area of study (specialization)

–

Profile of study

general academic

Level of study

first-cycle

Course offered in

English

Form of study

full-time

Requirements

compulsory

Number of hours

Lecture

30

Laboratory classes

0

Other (e.g. online)

0

Tutorials

30

Projects/seminars

0

Number of credit points

5,00

Coordinators

prof. dr hab. inż. Stefan Trzcieliński
stefan.trzcielinski@put.poznan.pl

dr inż. Edmund Pawłowski
edmund.pawlowski@put.poznan.pl

Lecturers

dr inż. Paweł Królas
pawel.krolas@put.poznan.pl

Witold Kasperkowiak
witold.kasperkowiak@put.poznan.pl

Behnam Pourahmadi
behnam.pourahmadi@doctorate.put.poznan.pl

Prerequisites

There are no predecessors in first degree studies. The student should have the ability to perceive, associate and interpret phenomena in social relations and bear social responsibility for decisions in the area of organization management.

Course objective

Teaching a system of basic concepts used to describe the management process and models, methods and principles explaining basic aspects of the management phenomenon.

Course-related learning outcomes

Knowledge:

The student defines the impact of legal norms on shaping structures and the functioning of

organizations, in order to consciously design and adapt organizational forms. [P6S_WG_02]
The student describes theories and models of behavior in organizations, identifying the influence of norms and organizational bonds on the effectiveness of actions. [P6S_WG_03]
The student lists key aspects of the evolution and shaping of organizational structures, to understand the dynamics of change in organizations. [P6S_WG_04]
The student characterizes the foundations of the functioning of network economic structures as well as the structures and institutions of the EU and the country's administration. [P6S_WG_05]
The student classifies different types of organizational structures and methods of their design. [P6S_WG_06]
The student identifies the connections between management sciences and other disciplines. [P6S_WG_11]

Skills:

The student demonstrates the use of theoretical knowledge to analyze and understand managerial processes and phenomena. [P6S_UW_01]
The student interprets and analyzes social phenomena in the context of management, utilizing acquired knowledge. [P6S_UW_06]

Social competences:

The student plans and contributes substantively to the preparation of social projects, taking into account legal, economic, and organizational aspects. [P6S_KO_01]
The student implements business ventures, applying fundamental principles of management. [P6S_KO_03]

Methods for verifying learning outcomes and assessment criteria

Learning outcomes presented above are verified as follows:

The knowledge of the lectures is verified during the session examination. Written exam in two versions: 1/ 5 open questions, 2/ 10 multiple choice test questions. Maximum number of points = 100. Positive score from 65 points.

The knowledge of the exercises is verified in two stages: 1/ evaluation of public presentations on the given topic, 2/ evaluation of the final test from the knowledge covered by the exercises. A maximum of 50 points can be obtained from each part, together 100 points. Positive assessment from 65 points.

Programme content

Genesis and development of management sciences. Management - its essence and significance. Management functions. Organization in the environment as a management object. Elements of organization - people, technologies, processes. Organizational unit, morphology of processes in an organizational unit. Management as a process of information and decision making.
