

COURSE DESCRIPTION CARD - SYLLABUS

Course name

Organization Theory [S1IZarz1E>NoO]

Course

Field of study

Engineering Management

Year/Semester

1/2

Area of study (specialization)

–

Profile of study

general academic

Level of study

first-cycle

Course offered in

English

Form of study

full-time

Requirements

compulsory

Number of hours

Lecture

30

Laboratory classes

0

Other (e.g. online)

0

Tutorials

15

Projects/seminars

0

Number of credit points

5,00

Coordinators

dr inż. Edmund Pawłowski

edmund.pawlowski@put.poznan.pl

Lecturers

Prerequisites

has knowledge of the basics of management

Course objective

Teaching a system of basic concepts used to describe the organization and teaching models, methods and principles explaining basic aspects of functioning of contemporary organizations

Course-related learning outcomes

Knowledge:

The student defines the essence of organization science and describes the theories of organization and its research methodology [P6S_WG_01].

The student names and describes organizational structures and their evolution, formation processes, and changes [P6S_WG_04].

The student describes types of organizational structures and knows the methods and tools for their design [P6S_WG_06].

Skills:

The student interprets proposed solutions to management problems and suggests appropriate decisions [P6S_UW_04].

The student analyzes social phenomena related to organizations and understands their impact on the functioning of organizations [P6S_UW_05].

Social competences:

The student contributes substantively to the preparation of social projects, considering legal, economic, and organizational aspects [P6S_KO_01].

The student prepares and implements business ventures related to the management of organizations [P6S_KO_03].

Methods for verifying learning outcomes and assessment criteria

Learning outcomes presented above are verified as follows:

The knowledge of the lectures is verified during the session examination. Written exam in two versions: 1/ 5 open questions, 2/ 10 multiple choice test questions. Maximum number of points = 100. Positive score from 65 points.

The knowledge of the tutorials is verified in two stages: 1/ evaluation of public presentations on the given topic, 2/ evaluation of the final test from the knowledge covered by the exercises. A maximum of 50 points can be obtained from each part, together 100 points. Positive assessment from 65 points.
